

Metrics Direct Income Fund

Investment Highlights

Monthly cash income¹

Low capital volatility

Attractive risk-adjusted returns

Experienced investment team with a track record of outperformance

1. The payment of monthly cash income is a goal of MDIF only and neither the Manager nor the Responsible Entity provide any representation or warranty (either express or implied) in relation to the payment of any cash income.

Who is it for?

The Fund may be suitable for investors looking for regular income, low capital volatility and a defensive strategy offering diversification away from traditional fixed income and equity investments.

Investment Objective²

The Fund aims to provide monthly cash income, low risk of capital loss and portfolio diversification by actively originating and managing well-diversified loan portfolios.

2. This is an objective only and may not be achieved. Distributions or returns from the Fund are not guaranteed. An investment in the Fund is subject to risk, including capital loss.

Investment Strategy

The Fund's investment strategy is to provide investors with exposure to directly originated loans to companies diversified by borrower, industry and credit quality. Metrics seeks to implement active strategies designed to balance delivery of the target return, while preserving investor capital.

What is a Corporate Loan?

A corporate loan is funding advanced to a company, with obligations to pay interest, fees, and repay the principal at an agreed date. These loans are usually provided for specific purposes such as business expansion, property development or company acquisition. They typically pay floating-rate interest and fees, giving investors higher returns when benchmark rates rise, unlike fixed-rate bonds. Corporate loans also include built-in investor protections, such as negotiated security, covenants and other controls, offering added safeguards against risk of loss.

Metrics Direct Income Fund

About Metrics

Metrics Credit Partners Pty Ltd (Metrics) is an alternative asset manager with expertise in fixed income, private credit, equity and capital markets and forms part of the Metrics Credit Holdings Pty Ltd group, which collectively manages assets in excess of A\$35 billion.⁵

5. Assets under management (AUM) refers to the total AUM across Metrics Credit Holdings Pty Ltd (ACN 150 647 091), which includes Metrics Credit Partners Pty Ltd (ABN 27 150 646 996, AFSL 416146) and its affiliated entities.

Key Risks

Credit risk is one of the risks within a portfolio of private loan assets. As such, credit quality and monitoring is the top priority for the Metrics team. The Metrics team is highly experienced and have a demonstrated track record of performance originating and managing large portfolios of private loans. There are three key reasons for this:

- 1 Metrics undertakes detailed and thorough risk assessment of all borrowers it lends to and completes rigorous due diligence prior to committing its capital.
- 2 Metrics ensures there is sufficient equity buffer within the loan agreements to absorb any decline in the financial performance and valuation of the company.
- 3 If a workout or corporate restructure is required, Metrics have a highly skilled and professional investment team, with significant experience in corporate restructuring to act swiftly, seeking to preserve value for our investors.

Investment Philosophy

The Australian corporate loan market represents a large and active segment of Australia's corporate fixed income market.

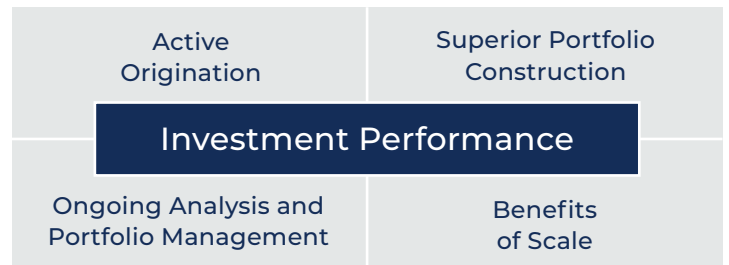

Metrics believes that an experienced investment team that understands the various sources of income available from, and risks associated with, corporate loans, is best able to implement investment strategies and processes to maximise returns from this asset class.

Investment Process

Metrics' investment processes focus on generating returns by combining disciplined asset origination with active portfolio management.

Metrics believes that early, proactive and direct asset origination is the key to ensuring access to the best quality transaction opportunities, leading to optimal portfolio construction and outperformance. Constant monitoring of macro and micro factors that may impact specific investment risk, together with ongoing monitoring and regular asset and portfolio stress testing, acts to alert the investment team to investment performance risks.

Delivering Performance⁶ Through Direct Origination and Active Risk Management

Performance⁶

Fund Performance as at 28 February 2026.

6. Past performance is not a reliable indicator of future performance. Returns and distributions are based on NAV unit price, after taking into account all fees and costs. Returns are annualised if over one year. Returns over 1 month are compounded monthly. No allowance has been made for entry fees, expenses or taxation. Target Return: RBA Cash Rate + 3.25% p.a. net of fees. The Spread to RBA is based on the Fund Distribution Return. The Target Return is calculated by compounding the total RBA Cash Rate plus 3.25% p.a. monthly. Cash Rate as at 04/02/2026 385 bps p.a.

7. MDIF invests in underlying Metrics funds which engage in direct lending activities, metrics based on underlying funds.

8. Inception date 01 July 2020.

	1 mth	3 mth	1 yr	3 yr	5 yr	Incep ⁸
Net return (%)	0.61	1.97	8.31	8.93	7.69	7.79
Distribution (%)	0.59	2.00	8.33	8.90	7.64	7.18
RBA Cash Rate (%)	0.29	0.91	3.85	4.14	2.86	2.54
Spread to RBA (%)	0.30	1.09	4.48	4.76	4.78	4.64

Metrics Direct Income Fund

How to Invest

The minimum initial investment for an investor is \$1,000.
