Your Impact

One Family Illinois would like to offer you an opportunity to invest in the safety, well-being and future of children facing instability. Through our innovative approach we provide families and communities with the tools, resources, and support they need to nurture every child.

One Family Illinois sponsors will be a part of a life-altering development. We have a proven model that improves children's lives, provides permanent housing for families and young adults, and ensures parents have full-time employment.

Expansion of our work will lead Chicago and the surrounding areas to be more unified and resourced and spaces where children will blossom into their full potential.

Our Approach

One Family Illinois advances the safety, well-being, and future of children by empowering the adults and communities that care for them.

We achieve meaningful results through four core programs:

- **Sibling Foster Care** – We keep siblings together in stable, loving homes with a professionally trained and licensed full-time foster parent.
- **Family Support** – We stand with parents navigating the DCFS system, offering support and guidance to help them strengthen their families and work toward reunification.
- **Housing Support** – We help families and youth aging out of care secure stable, affordable housing and resources they need to build a strong, independent future.
- **Community Outreach** – We empower communities through after-school enrichment, behavioral health support and nutrition and wellness activities.
