Safety

Safety is our first priority

We practice the most stringent safety standards in the industry. Consistent Training, Toolbox Talk & HR training on-site have made us achieve the industry's most dependable safety standards. We believe in the winning mantra of Zero tolerance; nothing slips by an inch without this formula at the construction area.

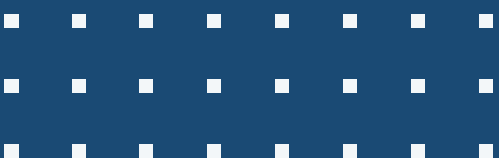

Quality

Uncompromised Quality is a Habit

We have earned many long-standing and deep-rooted clients with a decade of rich experience and a legacy name amongst the industry leaders. Our Quality certificates and SOPs are our badges of honor.

Our Solution

We offer an elite and wide range of construction along with project management solutions to our clients.

Our in-house diligent expert team makes it all possible to deliver quality construction in time, and budget.

Buildings

We have set the highest standards in building the Ahmedabad skyline with our excellence in development and project management.

Shree Hari Construction specializes in developing and crafting numerous High-Rise Buildings, Commercial, Institutional, Residential, and many more notable Infrastructure projects. We have adapted and consistently upgraded our Technical, Project Management and Innovative Skills to construct over the years.

Industrial

We have always been a step ahead in advancements and embracing the latest industry trends. We welcome light & heavy industrial construction projects and ensure the project is well-researched, contemplated, and prioritize the project requirements first and its subsequent impact on community development as a whole.

High Rise

With a remarkable experience of 25 years, we are positioned amongst the leaders of skylines and landmarks of the industry with high-performance.

Our Clients

Bungalows

We provide environmental certification via the development of eco-responsible materials to our clients.

Civil Work

Shree Hari constructions have time and again proven their expertise to take on large, complex projects with civil works project demands. We offer extraordinary in-depth soil and technical solutions for ground improvement, de-polluting the soil, new pipe installations, and remedy to existing systems. With our expertise, we also offer tunneling and boring solutions to build customized high-performance foundations.

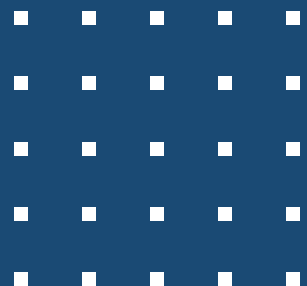

Use the best possible materials, &
reveal the quality of those materials &
the craftsmanship of their assembly.”

– Karl Friedrich Schinkel
