

November 2025 updates

## **Platform Updates & Important Announcements to the RTRS Platform**

### **Platform Compatibility Changes – Effective January 1, 2026**

To support improved performance, security, and new features, the RTRS platform will require:

- **iOS 17 or higher**
- **Android 13 or higher**

Users on older OS versions will need to update their devices to continue using the platform after 1/1/26.

### **Six New Redesigned Webpages Coming This Month**

We're releasing **six redesigned pages** focused on clearer navigation, better mobile responsiveness, and faster load times. These improvements reflect our continued investment in the user experience.

### **User Management Enhancements**

We've upgraded how administrators manage users inside RTRS:

## Users

Resend Welcome Email

OK

### Resend Welcome Email

If a user's "Confirmed" field shows "**No**" in the user list, simply click it to immediately resend their welcome email.

### Combined User + Role List

The user list and role list have now been merged on one page, making it faster to:

- Adjust permissions
- Assign or update roles
- See user status at a glance
- Find the date when a user confirmed their account setup

These changes streamline onboarding and ensure your team is always operating with the right access.

## External Forms: Spanish Moved to Top of Language List

To support multilingual operations, **Spanish now appears at the top of the language dropdown** on all external forms, making it easier for field teams, contractors, and community partners to access the correct version quickly.

## New Resources: White Papers & Industry Insights

Over the past several months, we've released multiple white papers covering topics such as:

- [OSHA 2025 & 2026 digital compliance trends](#)
- [Building connected multi-generational workforces](#)
- [Future of Risk Management](#)
- [Mobile-first inspection and reporting ROI](#)

These resources help you strengthen your programs and stay ahead of emerging standards.
