

FurnSpin

Catalogue

Hettich

People love a good spin

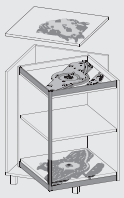

The Joy of FurnSpin is based on this simple but all the more compelling realisation.

Put a spin on tomorrow's world of furniture

Anyone wanting to set trends in this market needs to provide innovative solutions. FurnSpin breaks with yesterday's designs and brings fresh drive to the furniture world: furniture now turns to reveal everything inside without doors or flaps getting in the way.

FurnSpin permits new spatial concepts with outstanding design and impressive functionality. "Spinning" is a thing of joy, creating a magical furniture experience that's long remembered.

Design principle

Mode of operation

FurnSpin S

FurnSpin XL

Spin furniture:
- Interior furniture, is moved by FurnSpin-fitting
- Height min. 700 mm to max. 2400 mm

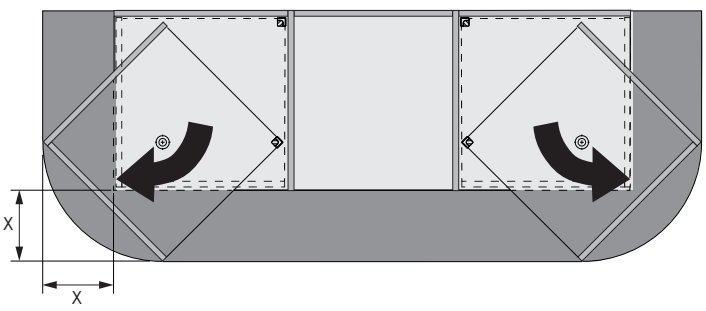

Bounding Box:
- Base area covered by Spin furniture in its open and in its closed position
- The Bounding Box determines the size of fitting to select

Movement area:
- Space required by the Spin furniture throughout its movement cycle, including the outside of the fixed furniture

Load capacity:
- Total weight of Spin furniture, including contents

Installed position, left:
Opening direction clockwise

right:
anticlockwise

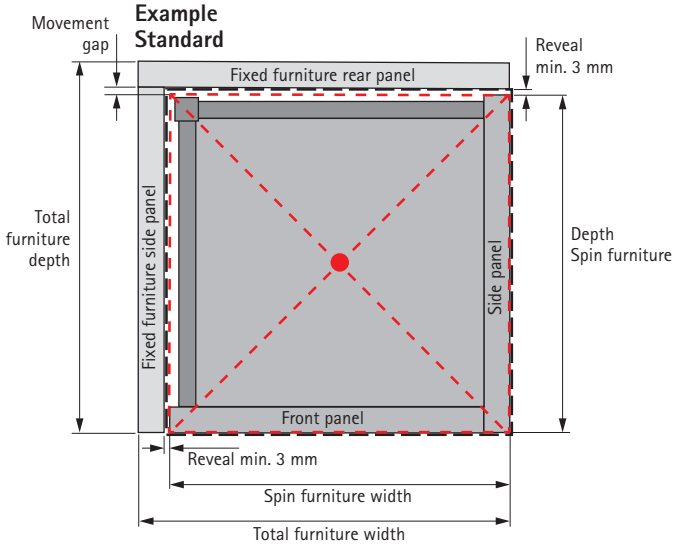

FurnSpin size	S	XL
min. in mm Bounding box Movement space X	377 x 377 192	564 x 564 275
max. in mm Bounding box Movement space X	450 x 450 207	664 x 664 296
Loading	80kg	120kg
max. recommended height in mm	2000	2400

Spin furniture versions

All illustrations show fitting installed on right (opening direction anticlockwise). Left: in ease case reversed.

Cabinet body designs

Examples show installed position on right (opening direction anticlockwise)

Integrated in free standing furniture

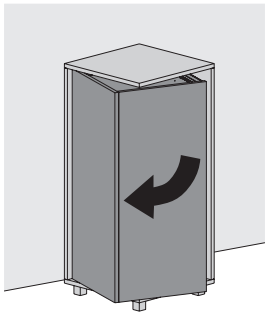

Stand-alone furniture

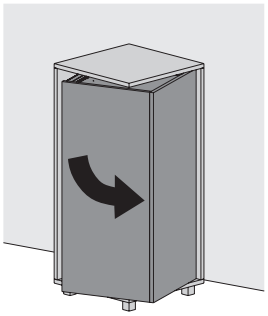

Wall unit with reinforced base panel

Installed position selected

Installed position, left:
Opening direction clockwise

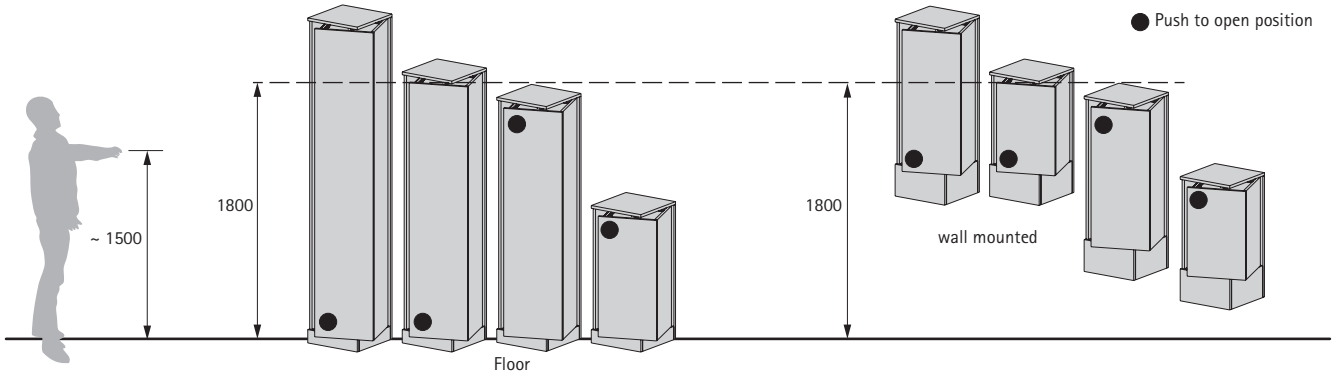

Installed position, right:
Opening anticlockwise

When planning the entire piece of furniture, always bear in mind which opening direction makes the Spin furniture easiest to open. The opening direction cannot be reversed.

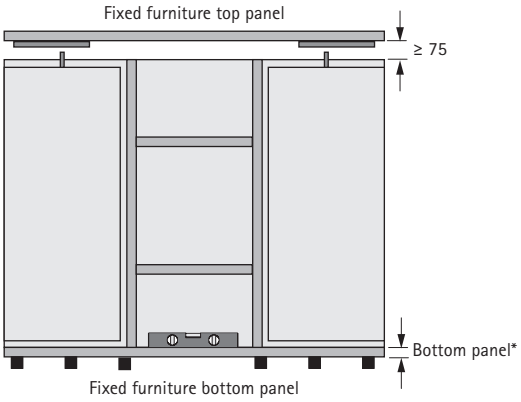

Push to open Silent position selected

Recommendation:
Top edge of Spin furniture above ≥ 1800 mm: Push to open positioned at bottom
Top edge of Spin furniture below < 1800 mm: Push to open positioned at top

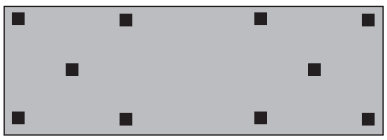

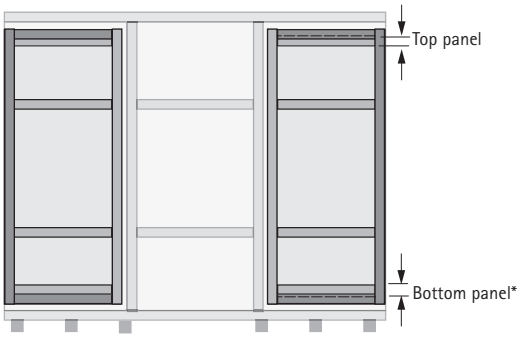

Cabinet body design details

Front view fixed furniture

View from below

Requirements on fixed furniture

- Removable top panel and clearance for installation ≥ 75 mm; Spin furniture is assembled by installing fitting from above
- Levelling, e.g. with spirit level
- Additional 5th foot, centred below FurnSpin fitting
- Fixed furniture attached to wall or adjacent furniture
- Minimum thicknesses of fixed furniture material in mm*:

FurnSpin size	S	XL
Top panel	≥16	
Bottom panel*	≥16	≥18
Side panel	≥16	
Rear panel	≥16	

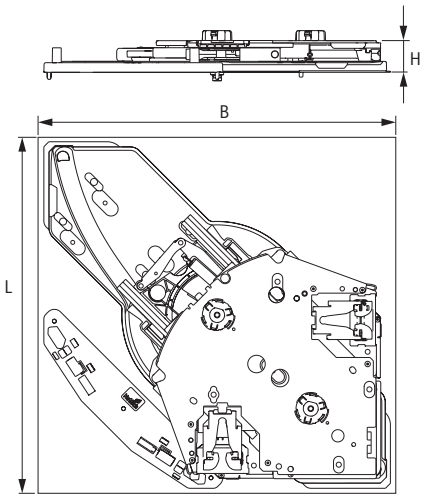

Requirements on Spin furniture

- Corner profile or similar to provide sufficient stability
- Clearance for installing FurnSpin fitting
- Minimum thicknesses of the Spin furniture material in mm*:

FurnSpin size	S	XL
Top panel	≥16	
Bottom panel*	≥19	≥25
Front / side panel	≥16	

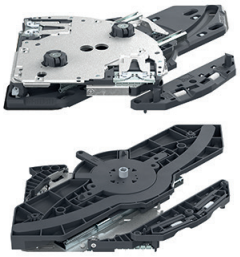

*depending on material quality, it may be necessary to use thicker material or provide reinforcement to prevent sagging.

Space required for FurnSpin

Minimum dimensions for installing turning swivelling fitting to mm		
FurnSpin size	S	XL
Length L	339	526
Width B	339	526
Height H	40	45

FurnSpin S

Support in selecting the right fitting size (S, M or XL) and detailed planning in the FurnSpin configurator
- Turning and swivelling system for a Spin furniture in a fixed furniture
- Installation position left: clockwise opening
- Installation position right: anticlockwise opening
- For two defined end positions: 0° and 180°
- Push to open Silent (Push to open with Silent System) installed in the top or bottom fitting (must be selected in relation to furniture height and mounting position)
- Push to open Silent only operational with the installation of the activator - installing without the activator results in functionality equivalent to FurnSpin without Push to open Silent
- Suitable for Spin furniture with a Bounding Box base area of min. 377 x 377 mm to max. 450 x 450 mm
- Height of the Spin furniture from min. 700 mm to max. 2400 mm
- Maximum load capacity (Spin furniture weight incl. load) 80 kg
- Can be adjusted in height, tilt, depth, width and end position
- Optional: Cadro frame system for FurnSpin
- Steel, plastic

Set comprises:
- 1 premounted top fitting
- 1 premounted bottom fitting
- 1 aid
- Fixing material

Cadro for FurnSpin Installation Instructions

https://hettich.solutions/48zd1ZJ

Individual components available on request

Cadro drilling jig Mini

- Drilling jig for precise hole and thread drilling
- Compatible with a wide range of Cadro profiles
- Drilling distance 20.5 mm suitable for fastening the connecting nodes with Cadro profiles
- For use with a cordless drill
- Including drill bush for HSS drill ø 4.5 mm
- Mith fixing stop for positioning the profiles
- Plastic, grey

Order no.	PU
9 316 176	1 ea.

General technical conditions
The fitting information, screw fixing points and load capacity information contained in this document assume proper attachment using screws specified by Hettich to a chipboard panel providing a screw pull out resistance of at least 1,000 N in accordance with EN 320.

Hettich accepts no responsibility for the load capacity of furniture and its components if materials or fastening methods are used other than those stated; the furniture manufacturer must verify load capacity.

The fitting situations show in this catalogue are only intended to illustrate the possible options. The furniture manufacturer is responsible for ensuring that furniture is designed in compliance with standards, in particular with regard to meeting the requirements on safety.

We will be pleased to provide any further information you may require.

General Terms of Sale and Delivery
All products and services will be provided exclusively on the basis of our General Terms of Sale and Delivery published on our website at www.hettich-agb.com.
