RECOMMENDED APPLICATION RATE:

Soil biology is an important partner for any grower. Microbes help with seed germination, plant protection, plant health, nutrient uptake, yield, and crop residue digestion.

1. Shake vigorously before use.
2. Use 1 ounce of Liquid Supercharger for every gallon of BIOACTIVE LiquiLife™ used
3. Apply mixture within 24 hours of combining

This product has a pH of 4 and can lower the pH of your water or nutrient solutions. If not used as directed, make sure to monitor the pH of the final solution.

Storage: Keep in a cool dry place. Reseal tightly after use. Not for human consumption.
