Nxsys

Nxsys Payroll · IRELAND

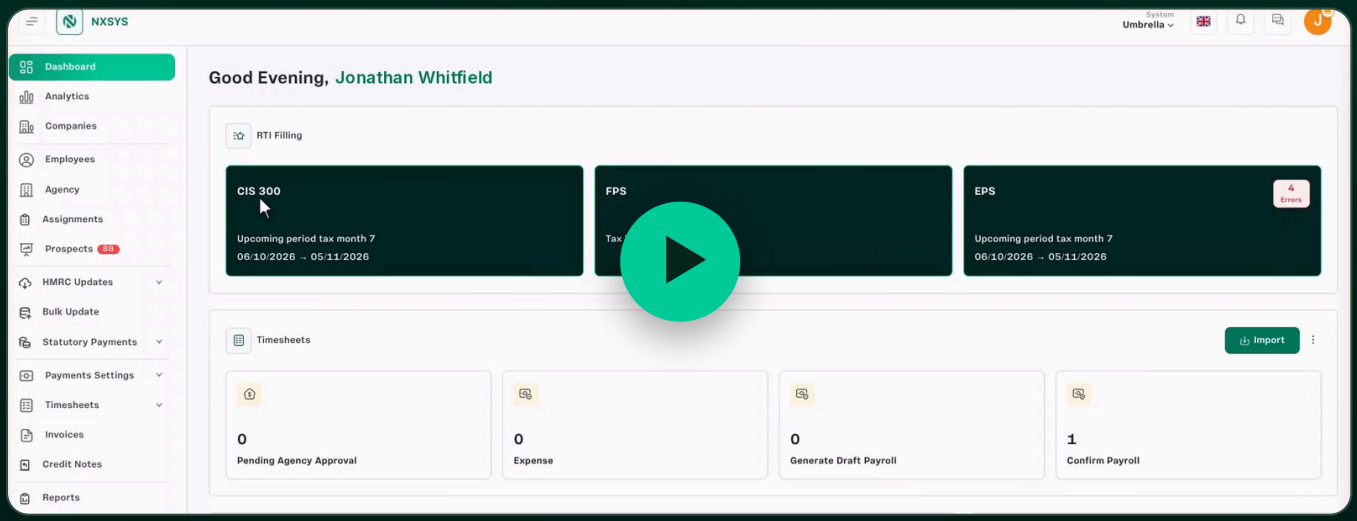

Cloud payroll software for every business

Nxsys Payroll runs payroll for SMEs, accountants, payroll bureaus and enterprises on one cloud platform. Pay your people on time, file with Revenue automatically, and give every employee an app for payslips and onboarding.

Payroll in three steps

Filed with Revenue every payday

An app for every employee

Payroll, people, timesheets, invoices, RTI and reports in one web app. Click to play, or scan the code: vimeo.com/1240292454

WHO IT'S FOR

One payroll platform for every type of business

From a single director to a bureau with hundreds of clients, Nxsys Payroll is the same platform.

01

Small and growing businesses

Simple payroll that runs itself. Set your pay dates once and Nxsys runs each pay run, files with Revenue and pays your staff.

02

Accountants and bookkeepers

Run every client payroll from one dashboard, with white-label payslips and client billing built in.

03

Payroll bureaus

Unlimited employers and bulk processing, so you can run, finalise and submit pay runs for many clients in one batch.

04

Enterprises

Multi-company payroll for large teams, with role-based access, a full audit trail, an open API and integrations.

05

Managed payroll service

Prefer not to run payroll yourself? The Nxsys team runs it for you on the same platform.

06

Umbrella companies

Paying contractors? Nxsys Umbrella is our payroll product built for umbrella companies.

WHAT IT DOES

Everything you need to pay people correctly

01

Payroll in three steps

Import your data, generate the draft payroll and confirm it. Nxsys then produces payslips and a bank file.

02

Employees onboard themselves

New starters add their details, ID and bank account in the Nxsys Payroll app, and see payslips there every pay day.

03

Import from any spreadsheet

Import mapping accepts your existing timesheet and pay files, so there is no reformatting before each pay run.

04

Payroll by exception

Nxsys runs payroll from your setup and tells you before each payday, so you only step in when something changes.

05

Bureau dashboard

Accountants and bureaus see every client payroll in one place and process them in bulk.

06

Connects to your tools

Pension providers, ID checks, accounting journals and HR systems connect to Nxsys, and an open API covers the rest.

COMPLIANCE

Compliance built into every pay run

01

RPNs and payroll submissions

Nxsys gets each employee's Revenue Payroll Notification before the pay run and reports PAYE, PRSI and USC to Revenue on or before every payday.

02

My Future Fund

Eligible employees are enrolled in Ireland's auto-enrolment scheme, with contributions calculated and reported through payroll.

03

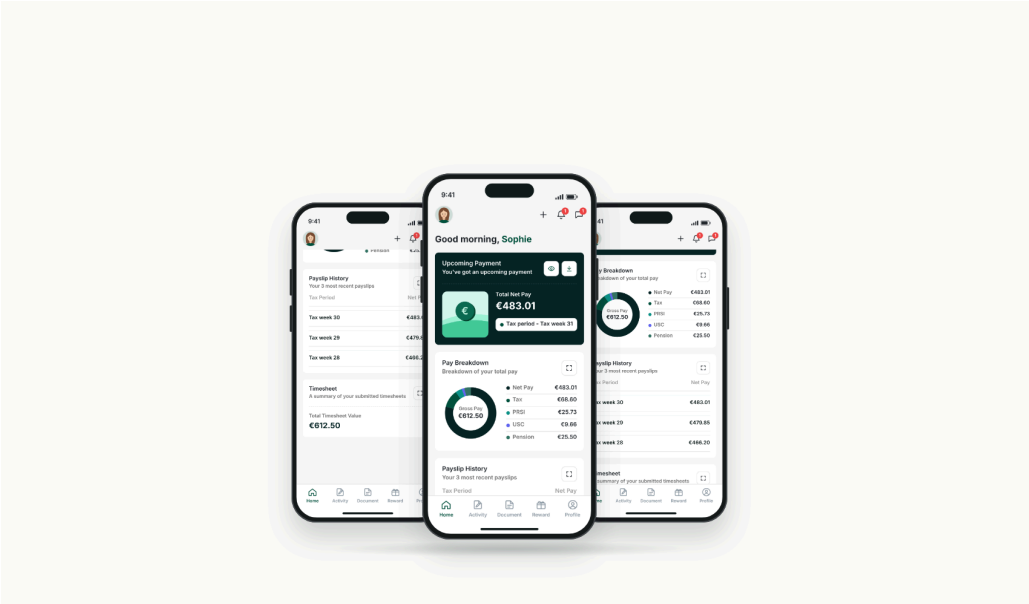

RCT and PPS checks

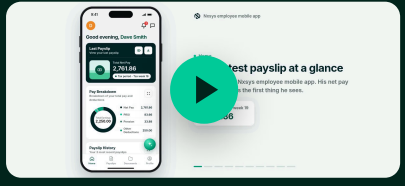

Relevant Contracts Tax is handled where the work is in construction, and PPS numbers are checked before anyone is paid.

THE Nxsys Payroll APP

Payslips and onboarding in your employees' pockets

Employees onboard themselves, verify their ID, add bank details and see every payslip and pay breakdown in the Nxsys Payroll app on iPhone and Android.

Watch the employee mobile app (57 seconds)

Payslips by tax period, the pay breakdown, messages to the employer and Penny, the Nxsys AI assistant. Click to play, or scan the code: vimeo.com/1240704693

UK + IE

one platform, two countries

5.0

rated on Capterra

- ✓ Built for Revenue's real-time PAYE in Ireland
- ✓ ISO 27001 and Cyber Essentials certified security
- ✓ Run UK and Irish payroll from the same Nxsys account

QUESTIONS

Common questions

Can I move to Nxsys Payroll in the middle of the tax year?

Yes. Nxsys imports year-to-date pay and tax figures from a spreadsheet or your current software, so your records stay accurate.

Does Nxsys Payroll work in the UK and Ireland?

Yes. Nxsys Payroll runs Irish payroll with Revenue and UK payroll from the same account, priced in euro or pounds.
