## UMBRELLA PAYROLL IN IRELAND

# How umbrella payroll is different in Ireland

01

### RPNs and payroll submissions

Nxsys gets each employee's Revenue Payroll Notification before the pay run and reports PAYE, PRSI and USC to Revenue on or before the payment date.

02

### My Future Fund

Eligible contractors (aged 23 to 60, earning over €20,000, not in a qualifying scheme) are enrolled automatically, with contributions from the first pay period.

03

### Equal treatment from day one

Under the Protection of Employees (Temporary Agency Work) Act 2012, agency workers get the same basic pay and conditions as the hirer's staff from the first day.

04

### PPS checks, LPT and RCT

PPS numbers are checked before anyone is paid, Local Property Tax is deducted where the RPN says so, and RCT is handled for construction work.
