

Linda Schenk

VICE PRESIDENT,
FINANCIAL OPERATIONS

Linda Schenk is the Vice President of Financial Operations at Kairos Power. She is responsible for leading the organization's Financial Planning and Analysis function, along with overseeing government grants and contract management.

Ms. Schenk's 30 years of experience in the nuclear arena consists of notable positions at Jensen Hughes, Inc., including Director of Business Operations – Power Services as well as Director of Contracts and Compliance which encompassed the company's nuclear export control program. Prior to these roles, Ms. Schenk was Vice President of Operations for ERIN Engineering and Research, Inc., where she was responsible for the company's accounting, human resources, contracts, and administrative functions, while leading the tripling of the company's revenue over a ten-year period. She also developed and managed ERIN's nuclear export control program, and was a member of the Nuclear Energy Institute's Export Control Task Force.

In advance of her professional roles, Ms. Schenk completed Business Administration coursework at Diablo Valley College.
