

Tom Miller

CHIEF OF STAFF,
TECHNOLOGY DEVELOPMENT

Tom Miller serves as Chief of Staff to the Chief Technology Officer at Kairos Power, where he helps drive execution across the company's technical organization. In this role, he partners closely with technical development, business, and operations leaders to align strategy, prioritize initiatives, and translate technical vision into measurable outcomes. Tom focuses on organizational effectiveness, cross-functional coordination, and decision support to ensure the CTO's priorities are executed at scale.

Prior to joining Kairos Power, Tom was Senior Director of Product Engineering and Quality at Corsair, where he oversaw the full product engineering lifecycle and led a team of 100 engineers and technicians. He also served over two decades in the U.S. Navy as a nuclear submarine officer, culminating in senior operational leadership roles supporting U.S. and NATO submarine forces in Europe and Africa. Throughout his career, he has led large, multidisciplinary organizations in high-consequence environments requiring rigorous execution and disciplined decision-making.

Tom holds a bachelor's degree in mechanical engineering from Purdue University and a master's degree in mechanical engineering from MIT, where his research focused on acoustic sensing and ocean systems modeling. His education and professional experience reflect a consistent focus on complex systems, engineering excellence, and leadership development.
