

ATLAS[®]

ALL TERRAIN LOGISTICS AND TACTICAL SUPPORT VEHICLE

Supporting Missions from the Home Front to the Battlefield

The Navistar Defense ATLAS[®] is a highly common, scalable, and modular family of vehicles that can handle the full spectrum of mission roles, from long-range highway logistics to navigating severe off-road trails. It brings commercial innovation to the battlefield to enable U.S. and allied nations to gain a competitive edge. ATLAS combines proven common militarized platforms with advanced commercial technologies, resulting in superior capabilities at a lower cost.
