

UNDERSTANDING HDS ALTERNATIVE BENEFITS

 **THURSDAY | APRIL 2, 2026**
Registration Starts at 6:00 PM
6:30 PM - 9:30 PM

DR. PETER KIM, DDS
SPEAKER

This course is designed to give students a deeper and clearer understanding of alternate benefits in patient insurance. Students will learn when alternate benefits apply, how to use them, and what to watch out for when working with insurance policies that offer them.

Dr. Peter Kim graduated from the Herman Ostrow School of Dentistry at the University of Southern California in 2013. He has extensive experience in digital dentistry especially in CAD/CAM including 3D printing. His expertise in insurance matters derives from experience and many hours reading insurance documents.
