

ATELIERS DEL VENETO

SAVOIR-ÊTRE & SAVOIR-FAIRE

A NEW CHAPTER BEGINS: ADV BECOMES ATELIERS DEL VENETO

Dear Client,

After 25 years of excellence by your side, we are turning a new page: ADV is becoming **Ateliers del Veneto**.

This evolution reflects who we are and our vision of authentic luxury, where savoir-être and savoir-faire meet at the heart of our Ateliers. Our savoir-être is the expression of a strong company culture—one that places respect for others, whether artisans or clients, along with discipline and passion, into every creation.

Our savoir-faire is the fruit of 25 years of techniques, handed down and perfected by artisans who create with their hands, their hearts, and their ingenuity. It is this “trinity” that defines the excellence of our craft, bringing each creation to life and enhancing your most precious objects. Our savoir-faire also allows us to shape the future of our métier by embracing digital transformation and artificial intelligence, building a future where craftsmanship goes hand in hand with sustainability and innovation. The Veneto, our homeland—a region of both innovation and tradition—shapes our vision and inspires the authenticity we strive to embody. From this heritage, we have drawn the strength to forge a new identity: that of discreet, refined luxury, anchored in a respectful modernity.

Our commitment remains unchanged: the same team of devoted artisans, the same excellence of craft, now expressed through a clearer identity that fully conveys our vision of exceptional craftsmanship at your service. Your trust, over the past years, has guided this evolution and commits us for the next 25.

We look forward to continuing this journey with you,

Raffaella Marcon

Managing Director, Ateliers del Veneto
