

How to Find an In-Network Provider:

- To see if a provider is in network, go to [Find a doctor, dentist, pharmacy or facility | Wellmark](https://www.wellmark.com/find-care) (<https://www.wellmark.com/find-care>).
- Click on **Individual, family and employer**. Scroll down to **Find a provider** in the Provider section. This will bring up a window indicating you are leaving Wellmark.com. Click on "[Continue to new site](#)".
- Click on **Choose a location and plan**.
- Enter the City and State for the provider(s) you are searching for, then choose "Yes, this is correct".
- For the **HMO** network, enter **XQW** for the 3-character plan prefix, which is the first 3 characters on your ID card.
- For the **POS** network, your 3-character prefix on your ID card will result in the same providers as the HMO network, as those afford "in-network" benefits per your Summary of Benefits and Coverage.
 - There may be coverage for "out-of-network" providers as well, at a higher cost per your Summary of Benefits and Coverage.
 - Click on **Browse a list of plans** that appears below the 3-character boxes.
 - Choose **Indemnity Network** (Classic Blue / BlueCard Traditional). Click **Confirm selection**.
- You may search your provider by Provider Name, Places by Name, etc.
- *****Provider information may change on a daily basis. In all cases, it is recommended to confirm coverage with your Provider and with Wellmark prior to service.*****
