

VANDERBILT UNIVERSITY BLUE LIGHT TOWER UPGRADE

175 Emergency Towers Modernized for Reliable, Real-Time Campus Safety

A campus-wide electronics upgrade with cellular communication, 10-day battery backup, and continuous monitoring.

Cellular Connectivity | 10-Day Battery Backup | Real-Time Monitoring

175 Tower Campus-Wide Upgrade

**No More Daily Tower Checks.
Always Monitored. Always Ready.**

A smarter, lower-maintenance campus safety system.

- All-new electronics with cellular communication and 10-day battery backup
- Real-time tower monitoring for immediate status visibility across campus
- Eliminates the need for daily manual tower checks by campus staff

Modernized Campus Safety Infrastructure Built for Long-Term Reliability.

Real-time monitored, battery-backed, and ready to support daily emergency response operations.
