Why EAP is a Critical Investment

When employees' real-world needs are recognized, productivity and motivation soar.

When personal challenges go unresolved, workplace performance, and your bottom line suffers.

Did You Know

In a recent study, 66% of employees experience burnout on the job at least sometimes

66%

Source: Robinson, B. (2025, February 8). Job burnout at 66% in 2025, new study shows. Forbes. <https://www.forbes.com/sites/bryanrobinson/2025/02/08/job-burnout-at-66-in-2025-new-study-shows/>

CLINICALLY GROUNDED AND PROFESSIONALLY TRAINED

Our **Masters-level professionals** are trained in getting employees back on track by defusing a volatile or difficult situation with minimal disruption.

Free EAPs are often limited in scope and can't provide the same level of access to mental health resources.

What is the ROI of a Premiere EAP?

This latest confirmation of Employee Assistance Program ROI and effectiveness came from the 2024 Workplace Outcome Suite (WOS) report. In the 2024 study, over 141,000 employees in 43 countries self-reported their outcomes from counseling interventions provided by their employer's employee assistance program.

With an investment in a Premiere EAP, the 2024 WOS study found:

**Productive Work
Time Increased
Following Counseling**

↑ 10 hours
per month

Lost productive work time dropped from 43 to 33 hours per month after using EAP services.

**Employee
Engagement Rate
Following Counseling**

↑ 13.4%

Work engagement rate improved from 67% to 76% after using EAP services

**After Counseling,
Work Absenteeism**

↓ 46.9%

EAP cases with an absenteeism problem reduced from 32% at before counseling to 17% after counseling.

**After Counseling,
Life Satisfaction**

↑ 28%

After counseling, life satisfaction rate rose from 65% to 83% after counseling.

**After Counseling,
Workplace Distress**

↓ 31%

Workplace Distress Reduced from 26% to 18% of cases after EAP intervention.

**Employees Ability to
Focus at Work
Following Counseling**

↑ 53%

EAP services helped boost employee focus at work, increasing from 43% to 66% reporting improved concentration.

* *Stats from 2024 WOS study

The Right EAP Can Make All the Difference
