

LUNA VALLEY

200 MW SOLAR FARM

LOCATION

Luna Valley Solar is located in **Fresno County, California** on previously disturbed agricultural land under Westlands Water District control.

LOCAL IMPACT

The Luna Valley project represents a **\$419 million investment** in California's economy. Over its lifetime, the project will contribute over **\$19 million in taxes** to support Fresno County schools, emergency services, and other public infrastructure. Project construction created **250 jobs**, supported by LIUNA, IBEW, Carpenters, IUOE, and Iron Workers (IW).

PROJECT HIGHLIGHTS

Luna Valley Solar is backed by long-term power purchase agreements with leading load-serving entities. San Diego Gas & Electric (SDG&E) has contracted energy from the project under a 15-year agreement. Additional solar capacity from Luna Valley is contracted under 20-year agreements with Southern California Edison and the Power & Water Resources Pooling Authority.

Luna Valley is located within and expected to benefit a **top 5% Disadvantaged Community (DAC)** identified by the **CA Office of Environmental Health Hazard Assessment**.

KEY DATES

Commercial Operations: Q3 2025
