Summary

Why CorePilot: CorePilot is the modern ERP purpose-built for the aviation aftermarket. By combining powerful AI automation, intuitive design, and deep industry insight, CorePilot helps the aviation aftermarket streamline operations, close more deals, and scale with confidence.

Here's how we stand apart:

- **AI-Powered Workflow Automation:** CorePilot uses advanced AI to eliminate manual tasks in team's workflows—accelerating turnaround times, reducing errors, and freeing teams to focus on strategic growth and customer relationships.
- **Aviation-First ERP Platform:** Purpose-built for the aviation aftermarket, CorePilot delivers an all-in-one ERP solution covering inventory, sales, procurement, repair management, CRM, and warehouse operations—everything needed to run lean and scale fast.
- **Modern, User-Friendly Interface:** CorePilot is designed to get out of your way. Its sleek, intuitive interface empowers users to move quickly and confidently through workflows—minimizing clicks, surfacing what matters, and letting teams get more done with less friction. It's ERP that works for the user, not the other way around.
- **Cloud-Native Infrastructure:** Built on a secure, scalable cloud architecture, CorePilot ensures anytime, anywhere access, rapid feature deployment, and enterprise-grade security—without the overhead of legacy systems.
- **Software Development Expertise + Industry Advisory Board:** Driven by a team with deep roots in software engineering, CorePilot blends technical excellence with frontline insights from an advisory board of 30+ aviation professionals—ensuring every feature reflects the realities of the aftermarket.
