

# IL — Benchmark Survey Crosstabs (by candidate support & demographics)

Percentages are unweighted and reflect the composition of the sample as collected. Each figure is the Total % of the stated base, rounded to whole numbers, so responses may not sum to 100%. Cells are the % within each column; “Base (col %)” is each column’s share of the block base. “-” marks an empty cell.

## THE RACE — the candidates, by every subgroup

The ballot standing and support strength, cut by demographics. The rest of every question, cut by who backs whom, follows in the banner book below.
