THANKSGIVING MANTLE GARLAND

USE OUR HELPFUL TEMPLATE TO SHOW OFF YOUR GOOD TASTE WITH A THANKSGIVING PIE GARLAND FOR YOUR MANTLE.

MATERIALS YOU'LL NEED:

Felt or cardstock in colors for crust (tan), filling (orange, beige, etc.), and any toppings

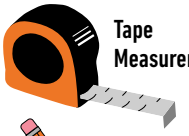

Twine or Ribbon

Scissors

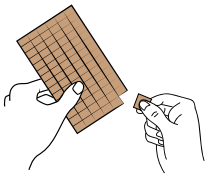

Gorilla Hot Glue Gun & Gorilla Hot Glue Sticks

Tape Measurer

Pencil

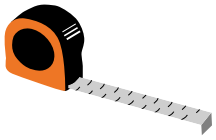

Gorilla Mounting Putty

INSTRUCTIONS:

1 MEASURE YOUR MANTLE:

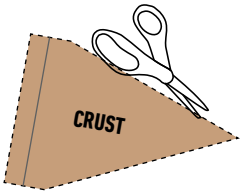

Measure the total length of your mantle. Divide the total length of the mantle (in inches) by 5" to see how many slices of pie you'll need to create your display.

2 CUT THE PIE CRUST:

Use our template to trace the pie slice shape on tan felt or paper. Cut as many crust bases as you determined you needed in Step 1.

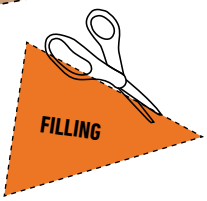

For Apple Pie: Use our template to trace and then cut thin strips of crust-colored felt to create a lattice crust top.

CREATE THE FILLING:

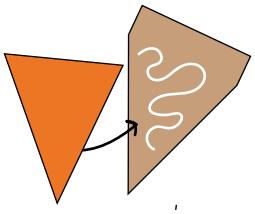

Using the slightly smaller triangle shape from our template, cut out the filling piece in a different color (like orange for pumpkin or buttery beige for apple).

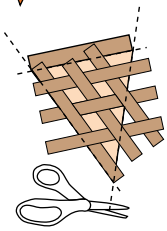

3 ASSEMBLE THE PIES:

Use Gorilla Glue Hot Glue to attach the filling piece onto the triangular part of the crust.

For Apple Pie: To create the lattice crust, glue the felt crust strips in a crisscross pattern over the "filling". Be sure to go over/under for the full effect. Trim the excess strips with scissors and use for another slice.

4 ADD TOPPINGS:

For a dollop of whipped cream, use the whipped cream circle template. Take the corner of each arm to the center of the dollop and adhere with a dot of hot glue.

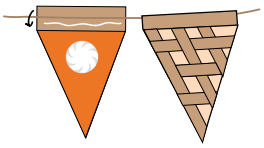

5 PREPARE THE STRING:

Cut the twine or ribbon to your desired length. Be sure to leave enough extra length to the ends to be able to hang the garland.

6 ATTACH PIES TO THE STRING:

Lay the twine across the top of the assembled pies and use Gorilla Hot Glue to secure each pie to the string, leaving even spacing between them.

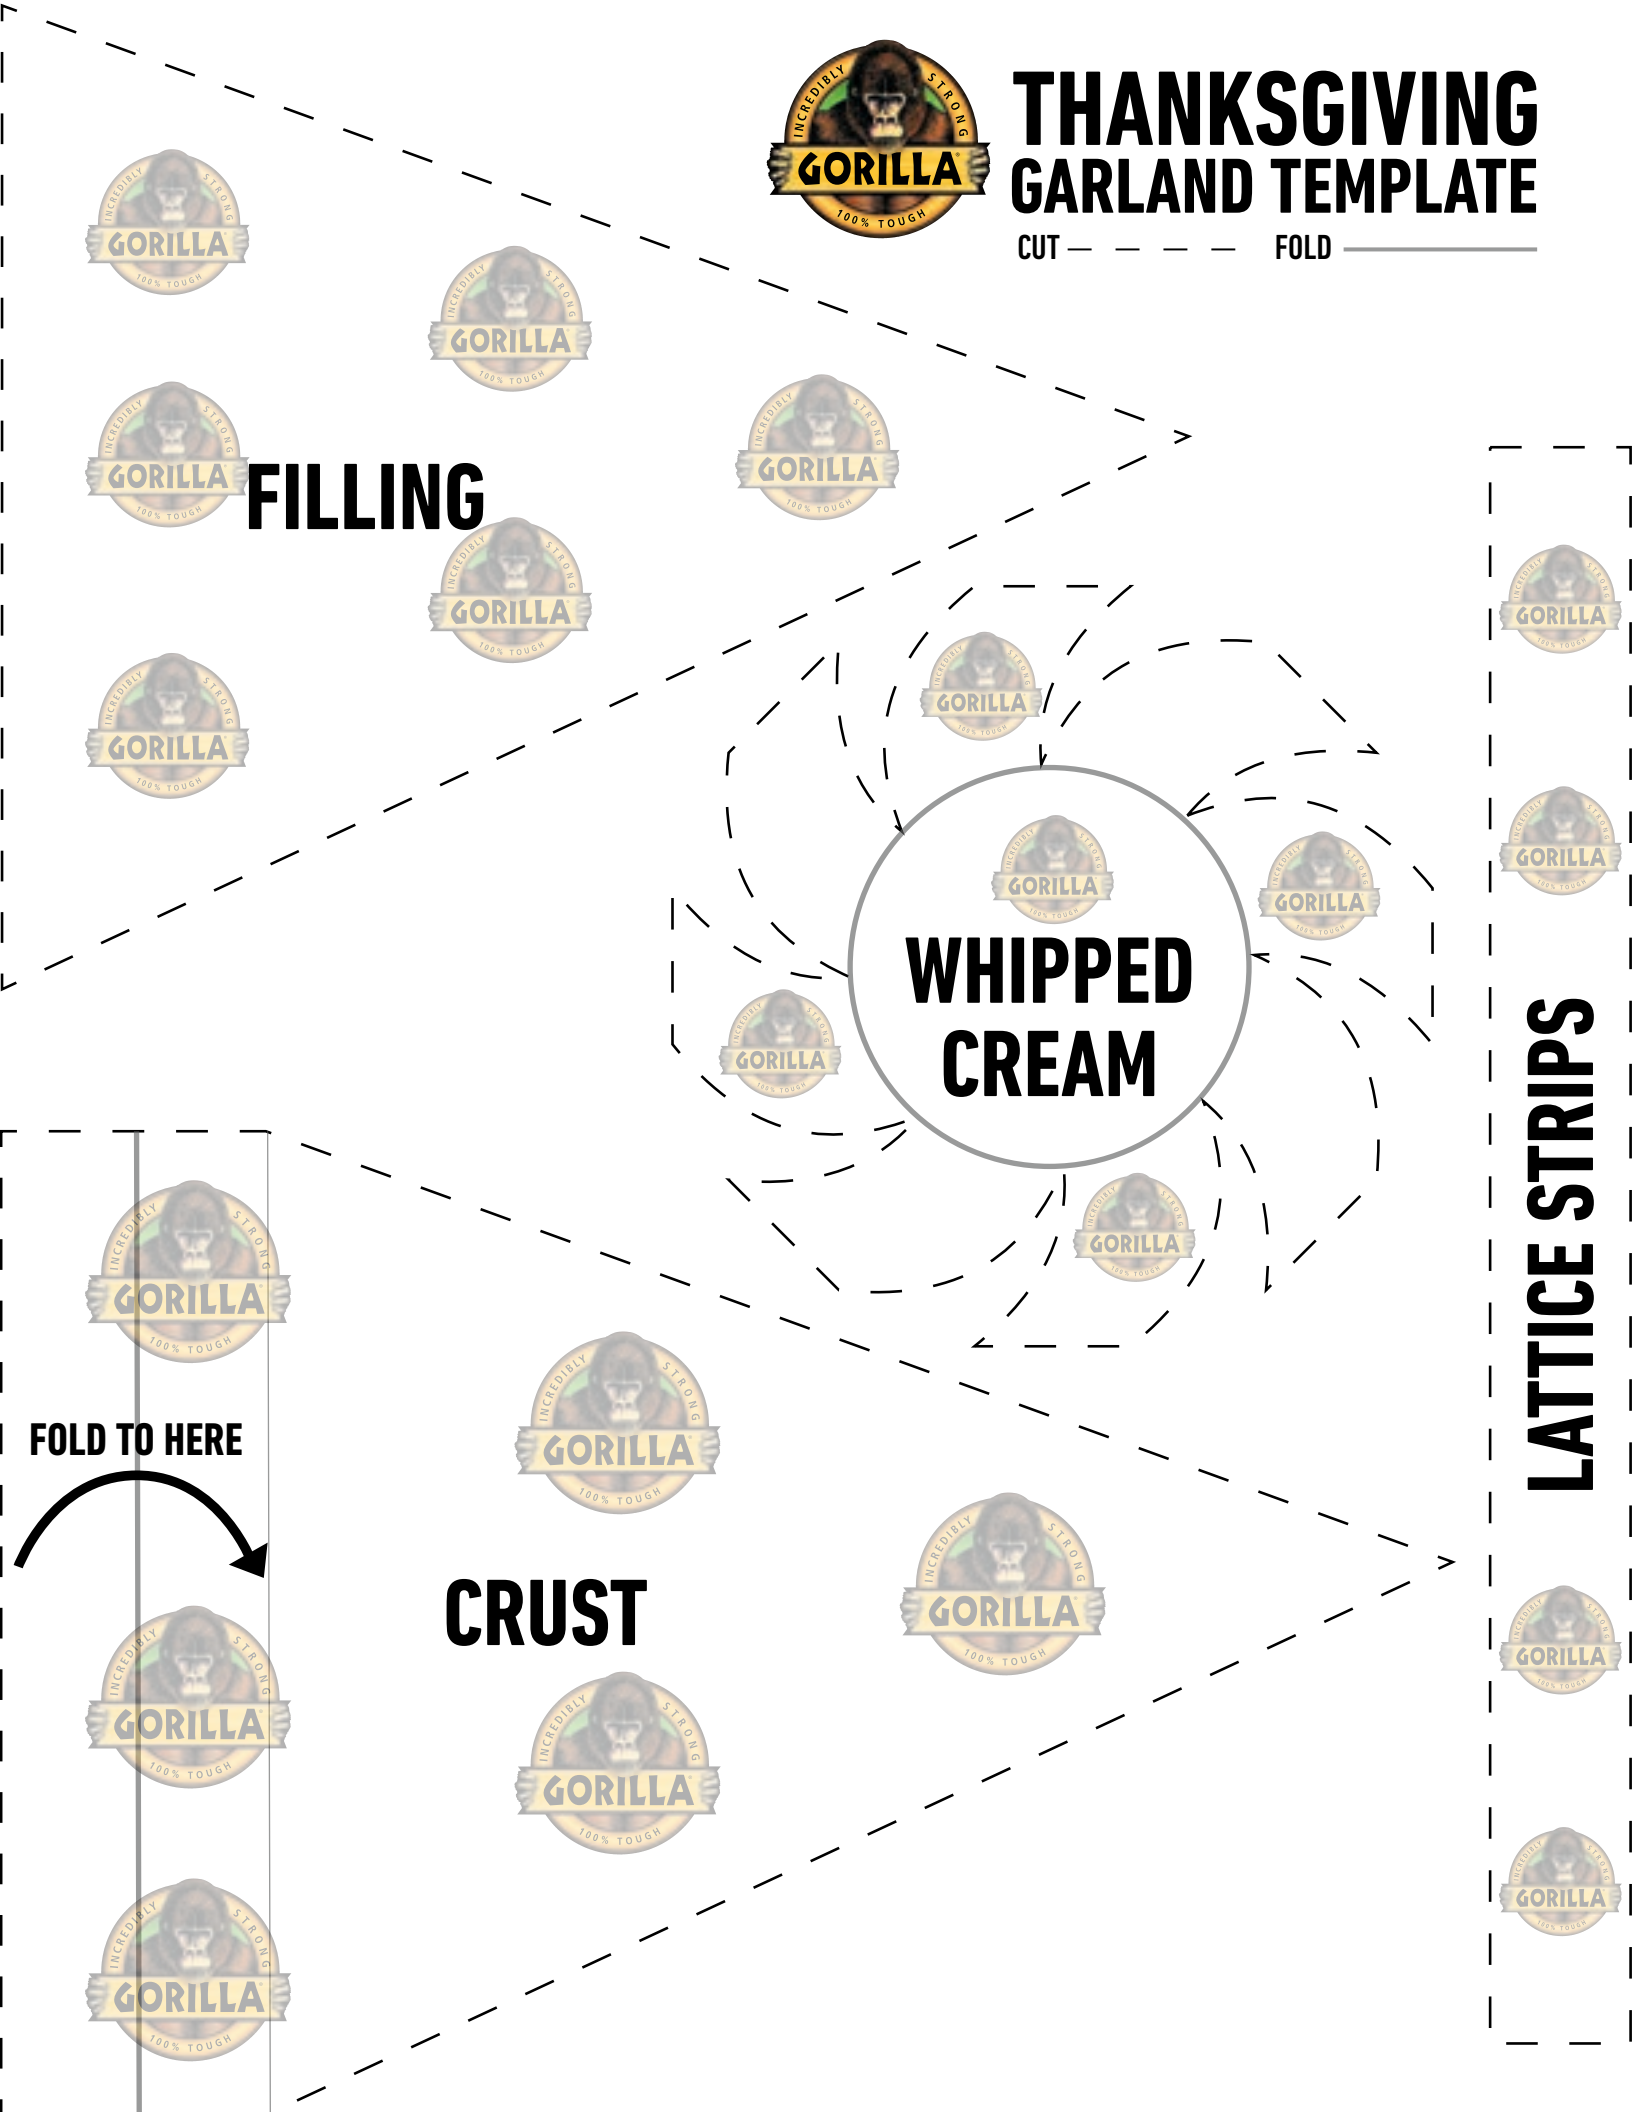

7 HANG YOUR GARLAND:

Use Gorilla Mounting Putty to hang the garland across your mantle.

8 ADMIRE YOUR WORK:

It looks good enough to eat!
