

IFRS & AASB Technical Advice & Support

The Issue

In today's complex financial reporting environment, boards, CFOs and finance teams are under pressure to deliver accurate, transparent and compliant reports. IFRS and Australian Accounting Standards (AASB) are constantly evolving and getting it wrong can mean regulatory challenges, reputational risk and poor decision-making.

Whether it's the first-time adoption of new standards, complex transactions or technical accounting positions, independent advice ensures compliance and gives stakeholders confidence.

What we do for you

Clarity. Compliance. Confidence.

Our technical experts provide clear, practical advice on the application of IFRS and AASB requirements, tailored to your business and industry. We don't just recite the standards, we interpret them in your context.

We assist with:

- a. Application of new and complex standards (IFRS 15 Revenue, IFRS 16 Leases, IFRS 9 Financial Instruments, IFRS 3 Business Combinations, etc.)
- b. Preparation and review of statutory financial reports
- c. Accounting for business combinations, consolidations and group restructures
- d. Share-based payments and employee equity schemes
- e. Impairment testing and valuation-related disclosures
- f. Illustrative templates and disclosure support
- g. GAAP-to-GAAP conversions and IFRS transition support
- h. Technical accounting opinions and position papers

The Benefits

The benefits to the organisation are:

1. **Clarity** – Complex accounting issues explained in plain language, with clear guidance for your team.
2. **Compliance** – Assurance that your reporting meets IFRS, AASB, Corporations Act and regulator requirements.
3. **Confidence** – Boards, audit committees and investors gain trust in your financial reporting.
4. **Support** – Access to specialist technical resources when you need them most.
