Services at UHY

Tax Advisory

Introduction

Technology has been great for consumers and business – and for government agencies. The Australian Taxation Office and other government authorities such as the NSW Office of State Revenue have spent big over the last 10 years and become very sophisticated in gathering information and targeting non-compliance.

Of course, our clients always seek to ensure they are on the right side of the law. Most transactions can be executed a right way – and a wrong way. Our tax team is ready to provide the advice you need, when you need it.

Capabilities

Our Tax Advisory capabilities are as follows. Refer to our Capability Statements to see how we execute to meet your business needs.

- Compliance Management – income, payroll and fringe benefits taxes
- Transaction Tax Advisory
- Estate Planning
- Effective Structuring
- Effective Tax Planning

Benefits

The benefits to you are:

1. You and your business can maximise after-tax cashflow.
2. Peace of mind in executing day to day and one-off transactions in accordance with tax laws.
3. Being able to plan large transactions so that you and your legal team can make the right deal and execute the right documentation – and know in advance of getting the deal done.
4. You can trade across Australia and, with the support of the UHY International network, around the world, knowing that your structures and documentation comply with tax laws.
5. When it comes to providing benefits to your employees, we can work on solutions which benefit both parties – the employer and the employee.

What's next
