

Mergers and Acquisitions

The Issue

Business growth can take many forms — one of the most powerful being a merger or acquisition. Having the idea is easy; executing the transaction is far more complex. You need to understand not only the impact on your current business and team, but also what the future will look like once the deal is done.

What we do for you

Strategy. Execution. Success.

Every merger or acquisition is unique. Our team provides tailored support to help you plan, execute and integrate transactions smoothly. We assist with:

- a. **Tax planning** – Structuring mergers and acquisitions efficiently to manage risk and tax outcomes.
- b. **Cost analysis** – Assessing financial implications and ensuring value drivers are understood.
- c. **Post-acquisition accounting** – Integrating financial reporting, systems and controls.

In addition, you can utilise our other services, being –

- Due Diligence
- Transaction Tax Advisory
- Share & Business Valuations
- Buy/Sell Mandate

If the target is offshore, then we also provide International Tax services to address the complexities.

The Benefits

The benefits to you are:

1. **Expert guidance** – Commercial, practical advice throughout a complex process.
2. **Momentum** – Timely responses and proactive follow-up keeps deals moving forward.
3. **Efficiency** – We liaise with legal advisers, reducing your time burden.
4. **Banker ready** – We help communicate financial details effectively to lenders.
5. **Commitment** – As deadlines approach, our team ensures all critical tasks are completed on time.
