

VORTEX SEGMENTED REBATE TRACK

SRT-64-75-30, SRT-92-75-30

Leaders in Innovative Building Products

PRODUCT DESCRIPTION

The Studco Vortex top track profile has a full-length rebated pan that increases stiffness and resists buckling forces, to ensure profile straightness and restrict members from following undulating concrete surfaces.

FEATURES

- Fixing Tab allows positive fixing to substrate on uneven surfaces.
- Full-length rebated pan that increases stiffness and resists buckling forces.
- Strain-relief kerfs limit deformation of the flanges.
- Manufactured in Australia using high quality, Australian steel.

INSTALLATION

- Contact Studco's technical team for custom solutions on 1300 255 255 or email techadvice@studcosystems.com.au

APPLICATION

For use within the Studco Vortex High Performance Framing System in tall building applications.
