Building Products

PRODUCT DESCRIPTION

Studco Angled top hats are higher, more narrow top hat channels. Used to create larger air gaps for acoustic applications and increased thermal capacity. They also provide larger amounts of space for installation.

FEATURES

- Available in 4800mm and 6000mm lengths.
- Studco top hats have a centrally located V-groove on the fixing leg, so your self-drill screw can easily find the centre of the leg.
- Suitable for use with a variety of lining materials including fibre cement sheet, aluminium composite panels, AAC panels and timber feature linings.
- Made in Australia from high quality, Australian Steel.

INSTALLATION & SPAN TABLES

Refer to Top Hats and Cladding Sections of Wall & Ceiling Design & Installation Manual.

APPLICATION

Used in external applications when fixing façade linings to the exterior of a structure.
