EzyJamb

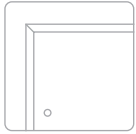

ISD | Inswing Door Frame

EzyJamb® Inswing Door - ISD is the ultimate inswing door jamb system to achieve a seamless look in hallways and corridors.

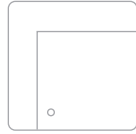

The incorporation of reinforced edges overcomes the continual damage door jambs are subjected to by normal everyday use.

Single Piece Jamb

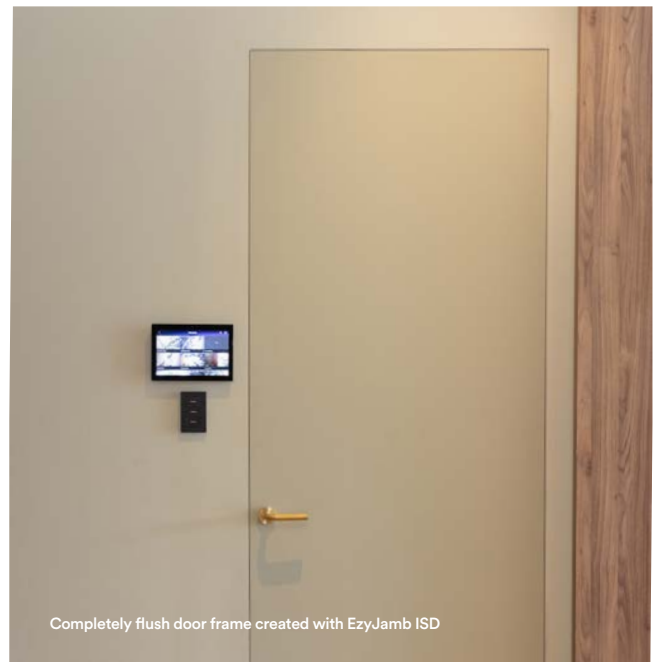

Rebated Interior Finish

Flush Exterior Finish

Completely flush door frame created with EzyJamb ISD

Completely flush door frame created with EzyJamb ISD

EzyJamb Inswing Door Jamb with RocYork Concealed Hinge

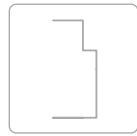

Single Rebate frames form a fluid connection between interior spaces.

EzyJamb

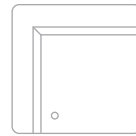

SRC | Single Rebate Door Frame

The premium design of the EzyJamb SRC provides a smooth transition from one side of the door jamb allowing a minimalistic sophistication in apartments, homes and commercial buildings.

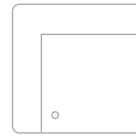

This one-piece frameless door jamb is made custom to perfectly suit your wall thickness for a flush finish.

EzyJamb Classic Adjust Door Jamb

EzyJamb flush finish creates seamless housing for service cupboards and fire hydrants

EzyJamb

Specialty Applications

The EzyJamb® range has a vast array of applications extending far beyond a basic doorway. Functionality meets modern, flush finish aesthetics.

EzyJamb double door installation for bedroom closets

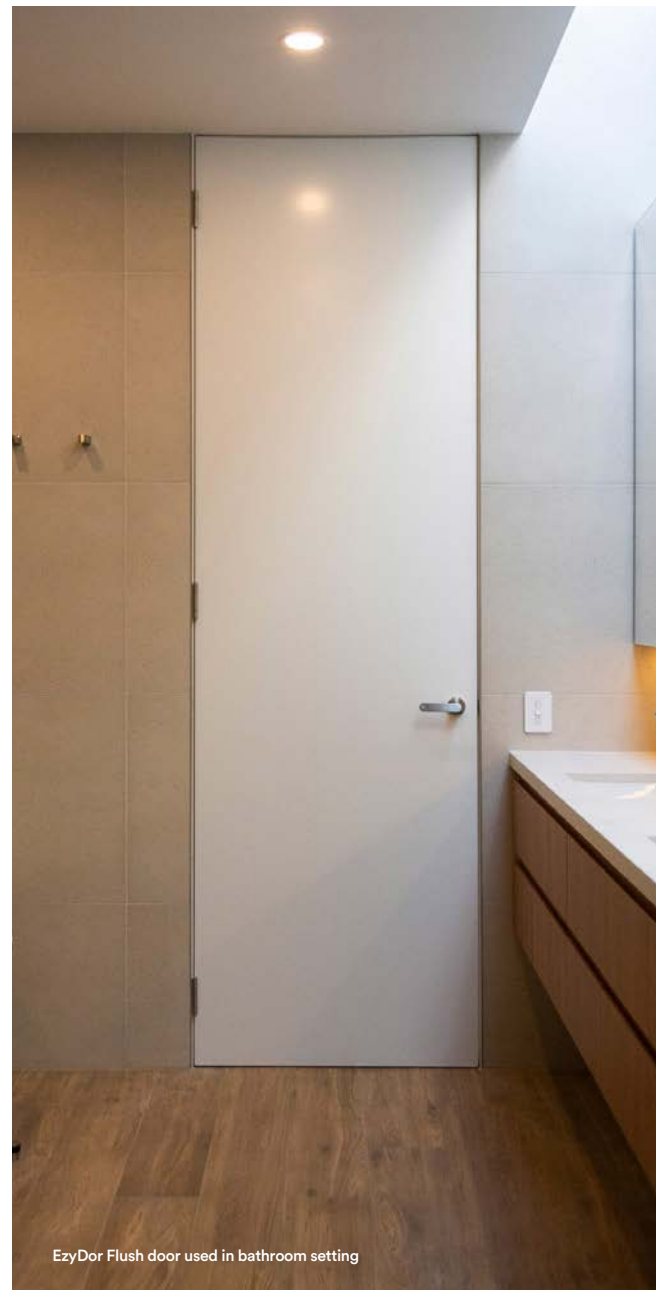

EzyJamb ISD with timber cladding creating an 'invisible door'

EzyDor Flush Panel Doors

The EzyDor Flush door line offers a range of interior profiles each delivering minimalist aesthetic to your interior design. Available with ready to paint MDF skin or Veneer skin available on request.

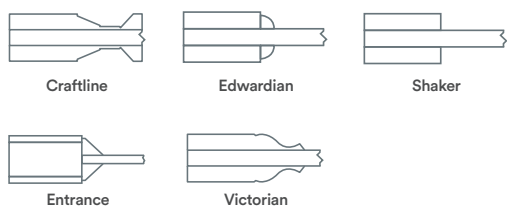

EzyDor Flush door used in bathroom setting

EzyDor

Decorative Doors

The EzyDor Decorative Door line encompasses a range of architectural styles, each a perfect fit for a finely detailed interior. Realize the architectural form of your design with the door to match.

Black RocYork Concealed Hinges create an accent in this door jamb

Stainless Steel RocYork Concealed Hinges

White RocYork Concealed Hinges pair with the white jamb and door

RocYork

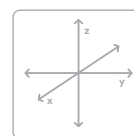

Concealed Door Hinges

Make your door hinges disappear with the all new RocYork® concealed door hinge from EZ Concept.

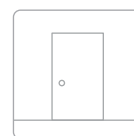

This revolutionary architectural breakthrough will allow uninterrupted clean lines around internal doors for the ultimate square-set interior. Available in Satin Chrome, White and Black.

No visible barrel

3 Axis Adjustment

Compatible with EzyJamb

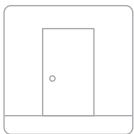

NoHa Invisible Handles installed in both SlideSet Cavity Sliders and EzyJamb SRC

RocYork

NoHa Invisible Handles

Achieve a completely flush look by pairing the NoHa Invisible Handle with EzyJamb door opening and an EzyDor Flush door.

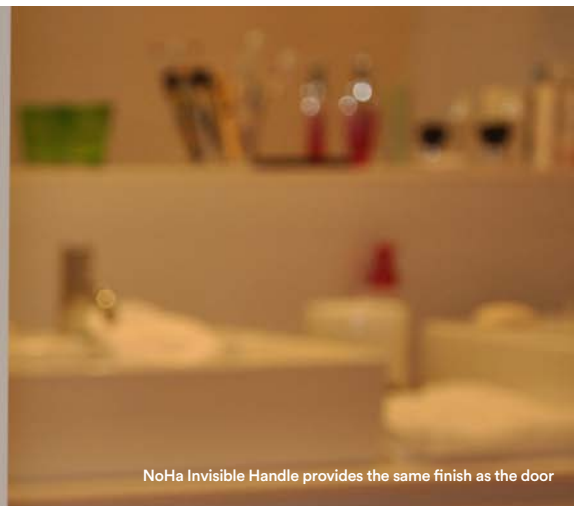

NoHa handles provide all the function of a standard handle whilst being completely concealed, providing the same finish as the door and walls.

NoHa Invisible Handle provides the same finish as the door

RocYork

Herline Hinges

The loose pin RocYork® Herline Hinges are surface mounted with self-tapping screws, making them easy to install.

Available in Satin Chrome, Black, and White.

RocYork

Mortice Hinges

A surface mounted hinge with self tapping screws, RocYork Mortice Hinges are specially crafted for heavy duty applications.

Available in Satin Chrome.

RocYork

Lift-Off Hinges

For greater flexibility, the RocYork Lift-off hinges are ideal for doors that require a service gap, such as bathrooms, as they can quickly be lifted and removed without the need for unscrewing the hinge; saving time in an emergency.

Available in Satin Chrome, Black, and White.

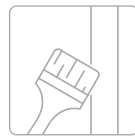

Standard height CavKit opening

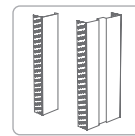

CavKit

Trims to suit cavity sliders

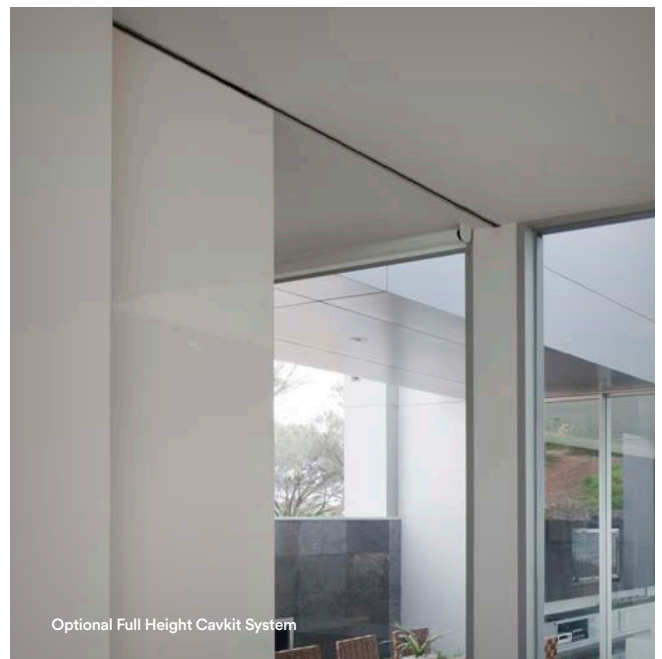

CavKit is a flush finish system that trims and caps the plaster-board edges around the door penetration, to create a cavity slider that can be hidden when open and provide privacy when closed, without the look of bulky architraves. Designed to perfectly match the EzyJamb door jamb system for swing doors, the CavKit pocket door trim system allows you to create a consistent flush look across all of your interior doors.

End Cap and Reveals

Optional Full Height Cavkit System

Cavkit Trim kit with SlideSet Pocket Door

SlideSet Flush Finish Cavity Slider installed in custom archway structure

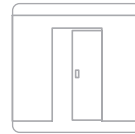

SlideSet

The Flush Finish Cavity Slider Solution

The SlideSet Flush Finish Cavity Slider System has been designed to provide the absolute minimum of detail giving the ability to completely conceal the door and give the impression that the door does not exist when open, and complete privacy when closed, adding a contemporary and architectural dimension to any project.

AccessDor

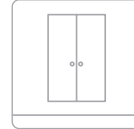

Smooth Transitions From Wall to Access Panel

Available as standard or custom solutions, AccessDor Access Panels are flush finished to the wall, with only a 3mm reveal between the door and wall and a discrete cam latch to inconspicuously blend into its surroundings.

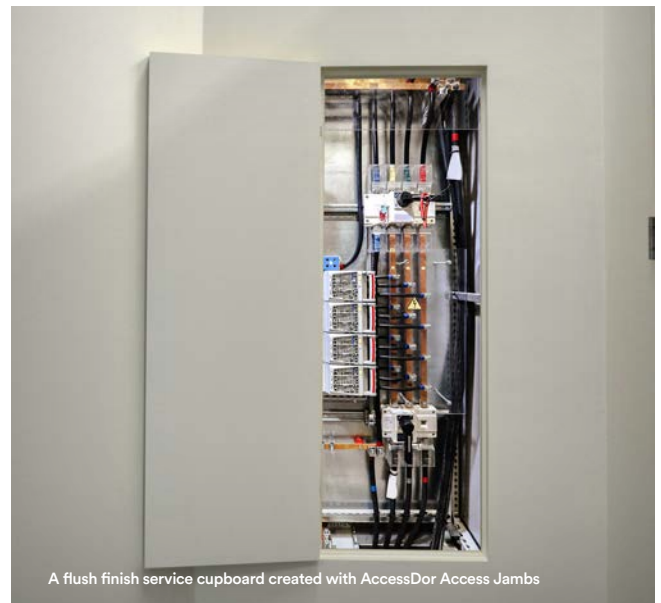

Available in standard sizes or bespoke solutions; AccessDor can be suited to your specification. Combine your AccessDor with concealed hinges and latches for the complete flush finish look.

Various Lock Options

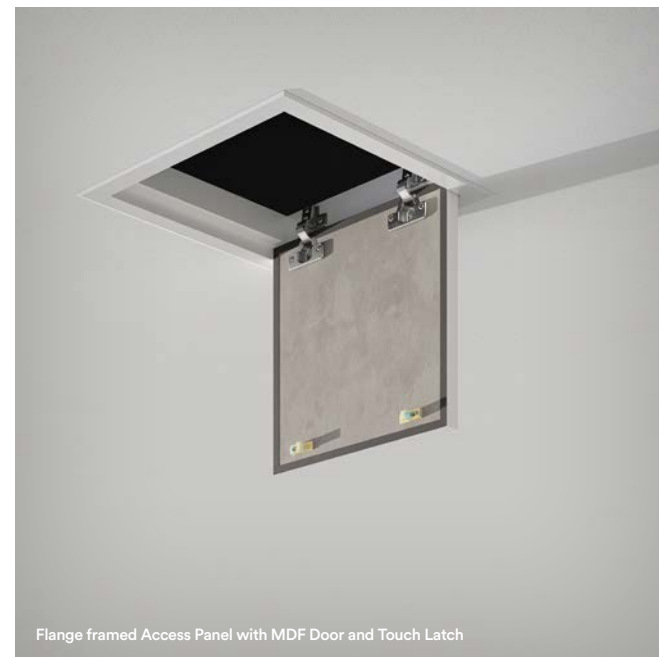

Flush Design

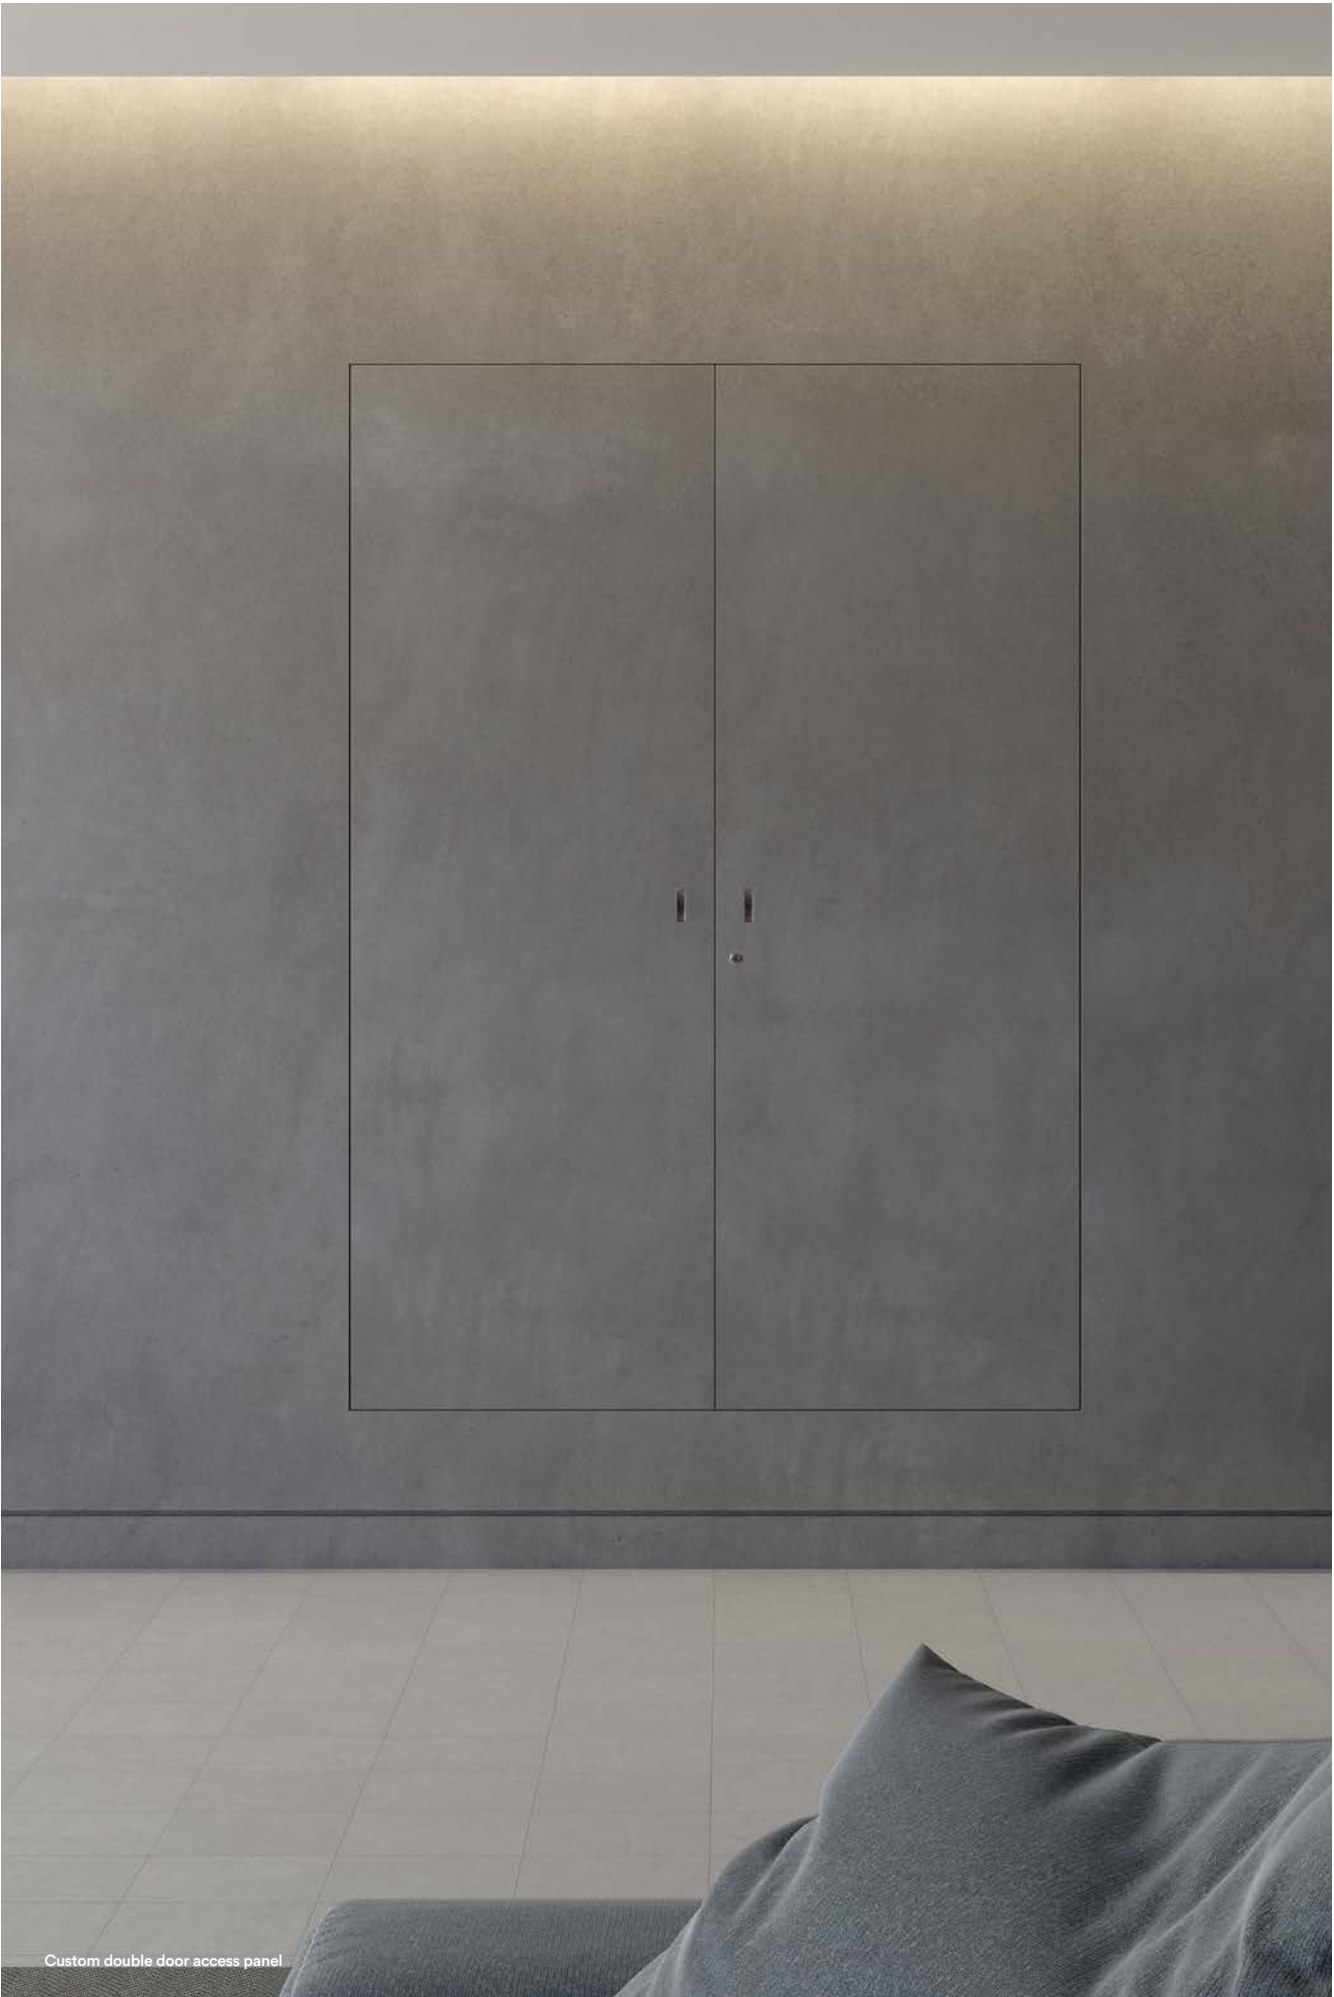

A flush finish service cupboard created with AccessDor Access Jamb

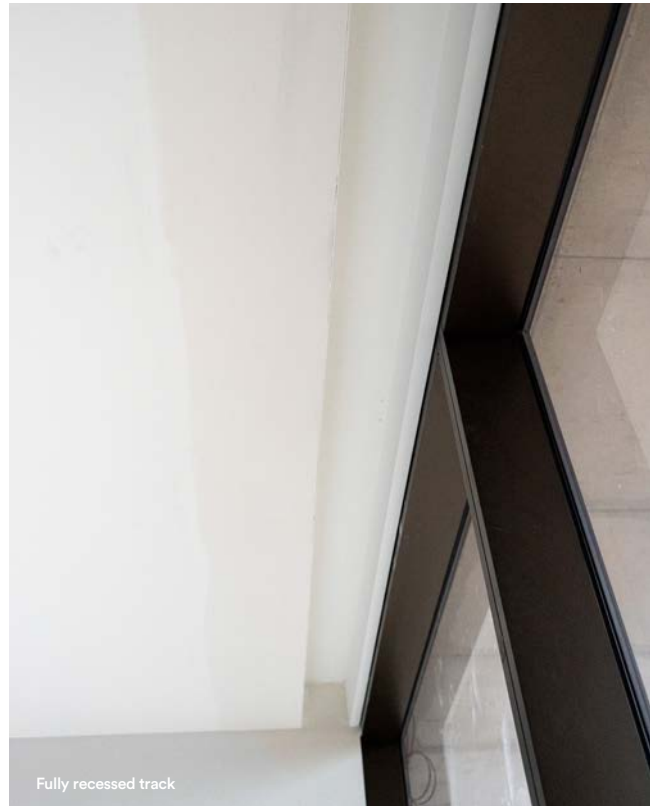

Flush finish Access Panel with Steel Door and Twist Lock

Flange framed Access Panel with MDF Door and Touch Latch

Custom double door access panel

Fully recessed track

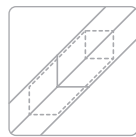

Concealed curtain track created with EzyPelmet

EzyPelmet

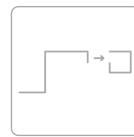

Two-Piece Pelmet System

EzyPelmet is a two piece, pre-finished cold-rolled steel section which provides a fast, economical and prestigious solution for creating recessed window pelmets in plasterboard ceilings.

It provides a simple and discrete transition between the interior ceiling and external windows, curtain wall facades or the building structure.

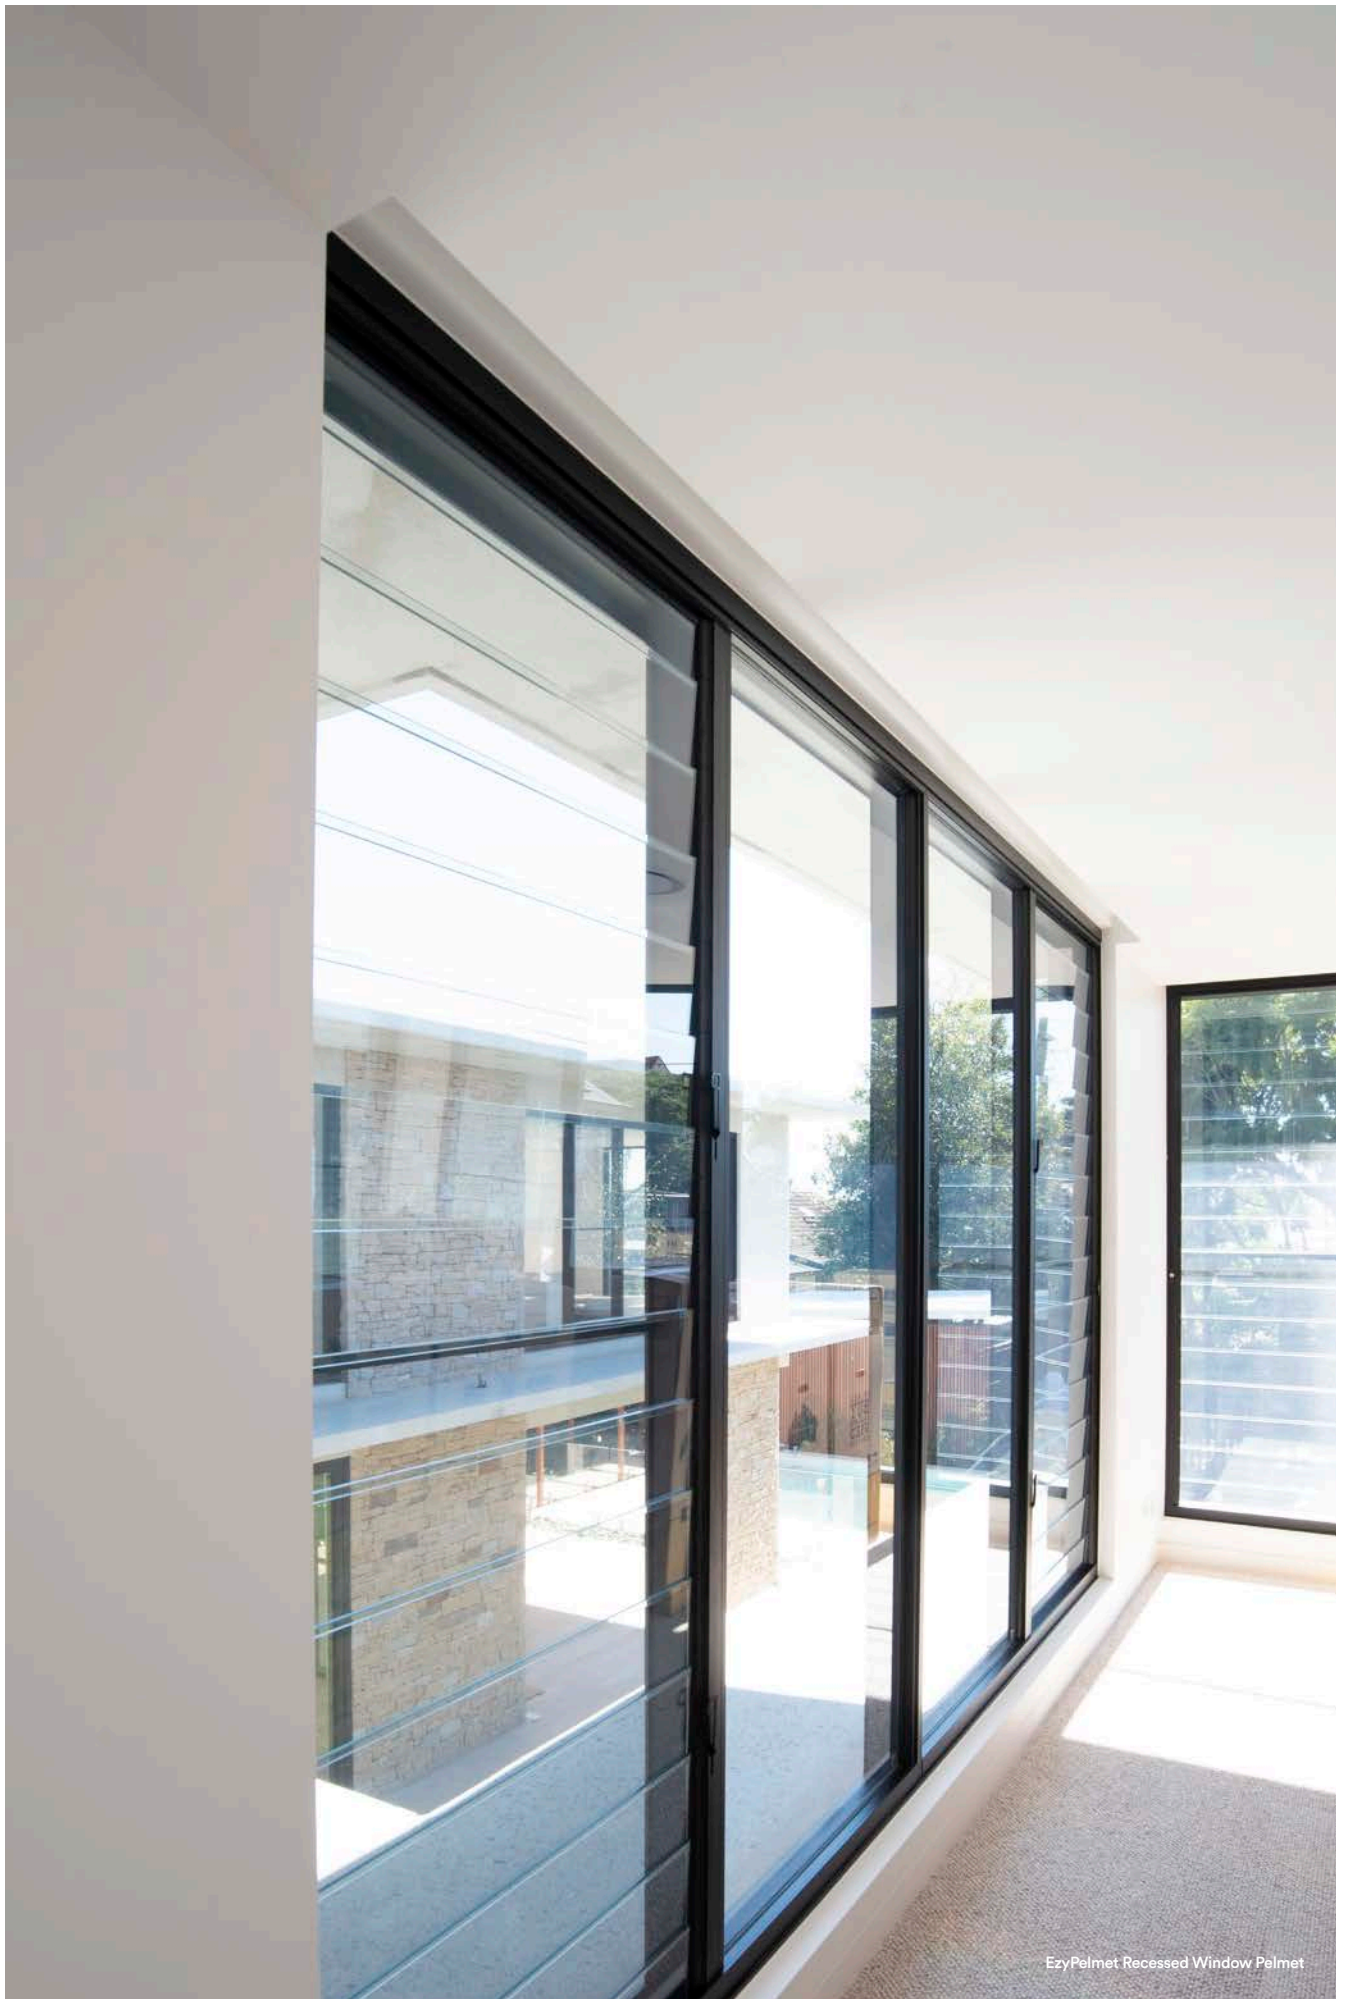

Concealed Joiner

Two Piece Installation

EzyPelmet Recessed Window Pelmet

EzyCap

Window and Wall End Capping

Cased openings or internal wall ends are made easy with EzyCap.

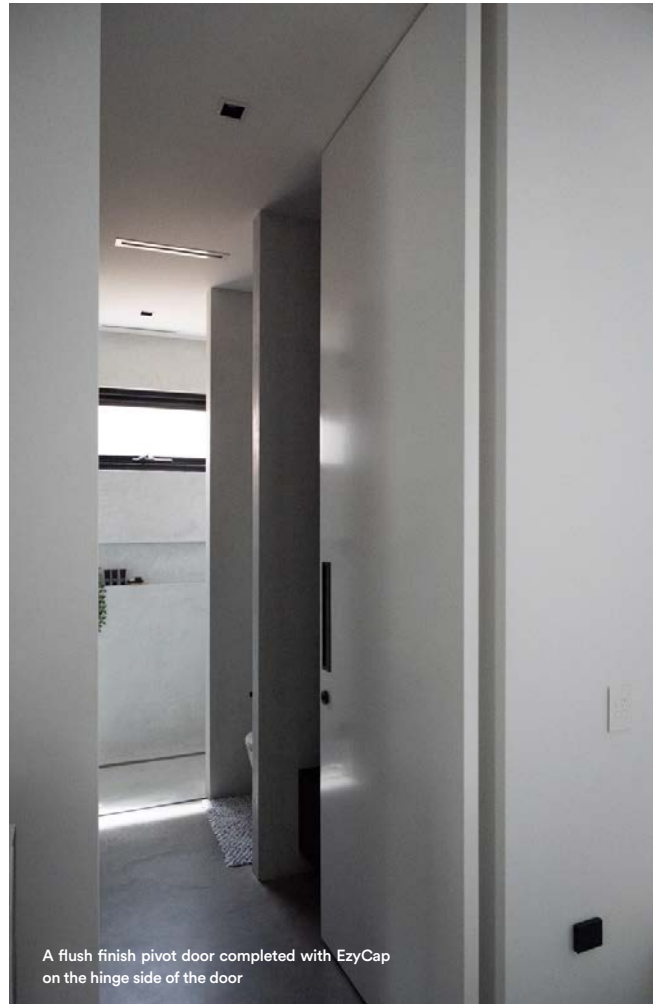

Save time on site with this durable solution that simply slides onto the end of the plasterboard to cap the wall end and doesn't require preparation to paint in with the rest of the wall.

Wear Resistant

EzyCap Shadowline Wall End

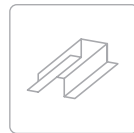

FastCap recessed curtain track

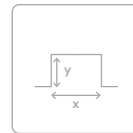

FastCap

Custom rebates and capping

Inspired ceiling designs command attention using FastCap; this innovative solution easily inserts between two sections of plasterboard to make light work of difficult rebates, plasterboard profiles and large oversized shadowlines. Recessing feature lighting or hardware, custom finishing and capping of plasterboard is made easy with the FastCap range of custom made finishing sections.

FastCap niches with lighting installed

Seamless views created with EzyReveal Window Reveals

Ideal for bathroom installations

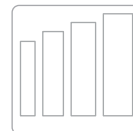

EzyReveal

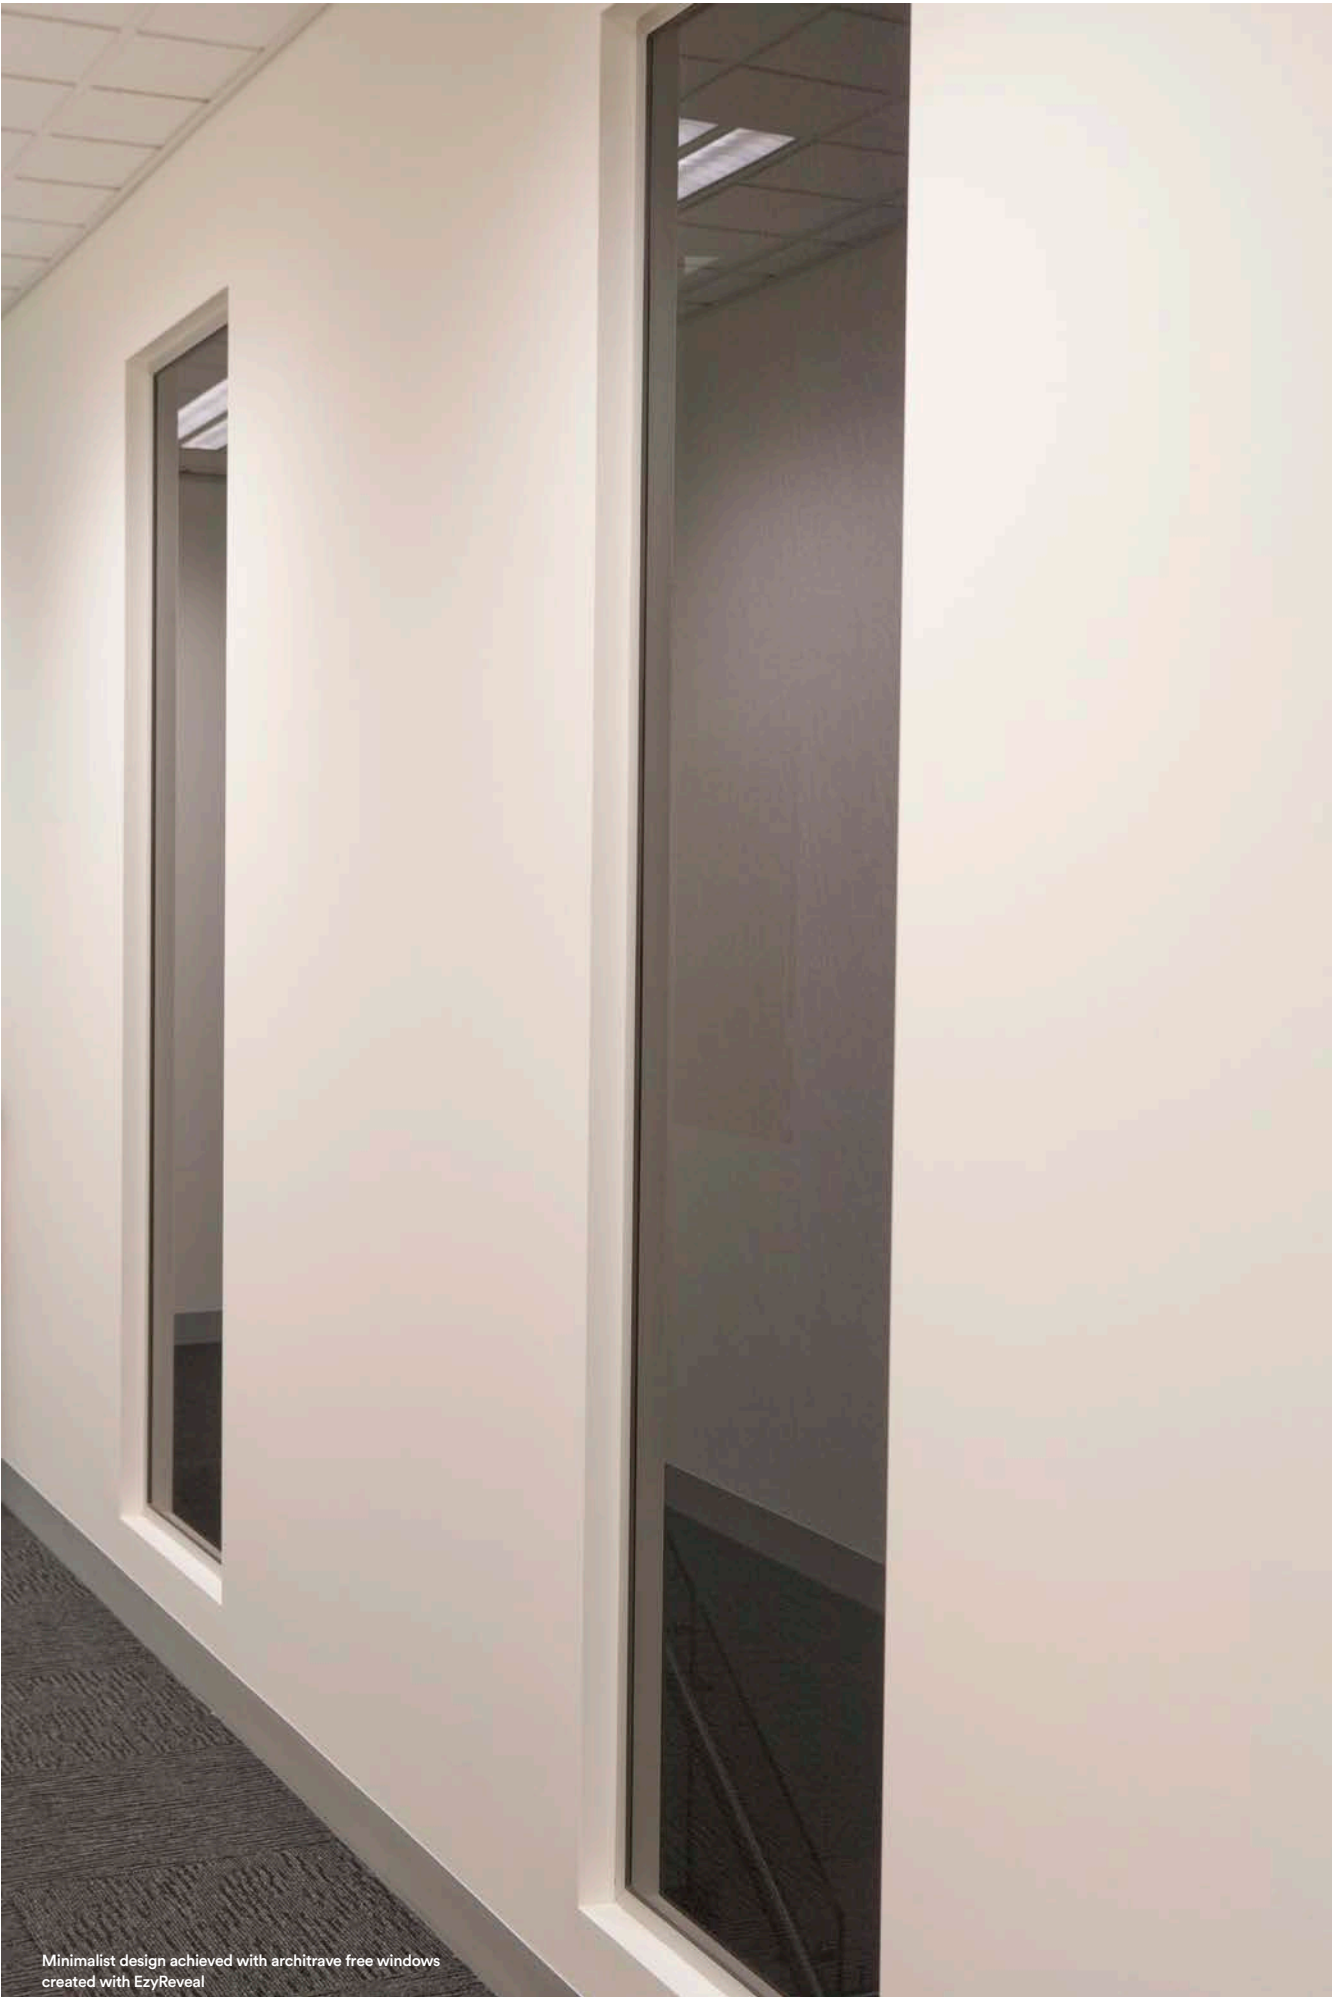

Window Reveals

Create a premium architrave-free, square-set interior finish with EzyReveal®; the steel window reveal that eliminates the need for architraves.

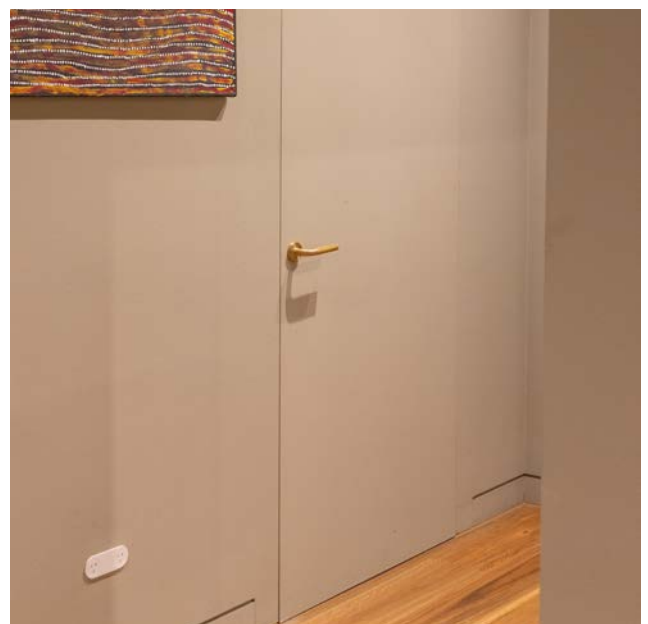

Using a metal reveal is more durable than timber, as it doesn't warp or crack over time, especially in sun-exposed areas.

Architrave free Windows Variety of Widths

Minimalist design achieved with architrave free windows created with EzyReveal

AluBase

Aluminium Skirting Boards

AluBase® Skirting Boards are a modern alternative to traditional timber skirting boards.

Providing a smooth flush finish that blends in with the rest of the EZ Concept range, designers can enjoy the benefit of eliminating the look of skirting boards for a superior interior finish.

Wear Resilient

Simple Edge Joining

AluBase Flat Skirting

Shadowline Skirting creating an architectural feature within rooms

Environmental Awareness

Our commitment to environmental responsibility, Studco Greensmart, is an industry-leading initiative based on two simple principles. Sustainable building technology innovation; and Practical sustainability leadership.

We are great believers in environmentally responsible business practices and in genuine investment for developing products that save energy and protect the environment. Our commitment to environmental responsibility and corporate accountability is evident in our ongoing certification to the internationally recognised benchmark standard ISO14001:2015 Environmental Management System.

When you build with Studco products, you can earn Green Star points for Green Star certified buildings.

Earn Green Star points with EZ Concept®.

Architects and interior designers have a unique opportunity to use EzyJamb flush finish door jamb to achieve a modern square-set interior without compromising the Green Star credentials for the building.

- EZ Concept products are made up from over 20% recycled content in steel material.
- There is no wastage generated on site.
- Manufactured under ISO14001 EMS policy.
- Talk to us today about earning Green Star points for your EZ Concept range.

Delivery

EZ Concept are committed to providing excellent customer service to our clients to help you achieve flush finished interiors. We understand the need for tight delivery windows on site and are happy to work around site limitations to ensure your products arrive when required.

Our products are made to order and a typical lead time for delivery is fifteen (15) working days. However, longer lead times may apply in some cases, so please confirm exact lead time with EZ Concept prior to placing your order.

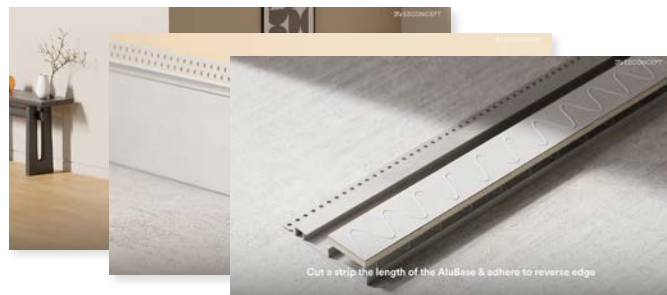

An expedited service is available on request for urgent orders. An extra charge per product is applicable to expedited orders. Expedition of EzyJamb, CavKit and SlideSet orders is subject to operational requirements. Always confirm exact lead time with EZ Concept prior to placing your order.

Installation

All EZ Concept products are designed for quick and simple installation on site. Installation instructions are available on our website at <https://ezconcept.com.au/resources/> as well as installation videos are also available on the EZ Concept website and YouTube Channel.

If you require further assistance with installation, please call the EZ Concept team for technical advice on 1300 399 526.

Australian Made

The Australian Made Campaign Ltd (AMCL) accounts for the manufacturing, packaging, and distribution of goods prior to reaching the customer. Accreditation serves as both a celebration of Aussie makers and an informative source for Australians to inform their purchases.

The line of EZ Concept products recognised by AMCL represent the best of the nation's architectural and construction products. The high grade of EZ Concept systems is predicated on its Australian BlueScope Steel composition and our in-house Technical team continually developing improved architectural solutions. The refined finish is achieved by our dedicated team rolling and preparing this steel to form the architectural systems we pride ourselves on.
