

FURRING CHANNEL

M29, M308

PRODUCT DESCRIPTION

Studco furring channel is a multi-purpose system developed for both interior and exterior structures. Designed to be non-corrosive and guaranteed to last, Studco furring channels are of high quality, and easy to use and install. The 'hat-shaped' furring channel frame is rolled from premium BlueScope galvanised steel and used as a batten for concrete or masonry walls and concealed ceiling assemblies.

FEATURES

- Studco offers 16mm and 28mm deep furring channel options for wall and ceiling assemblies.
- Available with a 38mm wide fixing face.
- Available in Standard lengths of 2700mm, 3000mm, 3600mm, 4800mm and 6000mm.
- Custom length furring channels in both 16mm and 28mm also available.

INSTALLATION

- Refer to the Ceilings and Walls sections of the Wall & Ceiling Design & installation Manual.

APPLICATION

Studco Furring Channels can be used in Direct Fix Ceiling, Suspended Ceiling, Curved and Raked Ceiling, and External Suspended Ceiling applications.
