

PRIMARY SUSPENSION HANGERS

M534, M520

STUDCO
BUILDING SYSTEMS

 Leaders in Innovative
 Building Products

PRODUCT DESCRIPTION

Studco Primary Suspension Hangers are suspension clips which allow the height of the suspended ceiling systems to be adjusted. These clips are suspended using 5mm rod attached to the side of the purlin or truss with M74 bracket or the underside of the slab using M46 or M47 brackets. Primary Suspension clips lock onto top cross rails, particularly in sections where smaller cavities needed between the system and the ceiling.

FEATURES

- Friction fit clips for suspension rods.
- Manufactured in Australia from high quality, Australian Steel.

INSTALLATION

- Refer to the following sections in the Wall & Ceiling Design & Installation Manual:
 - Suspended Ceilings
 - External Suspended Ceilings
 - Wall to Ceiling Intersections
 - Bulkheads

APPLICATION

These hangers can be used in a variety of applications including Suspended Ceiling Systems, External Suspended Ceilings and Bulkheads. Please see Wall & Ceiling Design & Installation Manual for further details.
