

ROD SUSPENSION BRACKETS

M45, M44

STUDCO
BUILDING SYSTEMS

 Leaders in Innovative
 Building Products

PRODUCT DESCRIPTION

Studco Rod Suspension Brackets are used to attach suspension rods to the primary structure in suspended ceiling systems. The M44 and M45 Right Angle brackets have been reduced in size to a minimum to reduce the overall height of the suspension system for use in low clearance ceiling cavities. They are also made from heavy-duty steel for increased structural capacity and use in seismic ceiling applications.

FEATURES

- M45 has 9mm hole for 6mm concrete screw anchors
- M44 has 12mm hole for 8mm concrete screw anchors
- Can be used in AS 2785:2020 compliant ceilings
- Max. 1.5kN tensile loading
- Only 25mm high for small ceiling cavities
- Use with Studco M21 5mm suspension rod

INSTALLATION

Contact Studco's technical team for custom solutions on 1300 255 255 or email techadvice@studcosystems.com.au

APPLICATION

Studco Rod Suspension Brackets are used as a part of a Concealed Suspended Ceiling System or Seismic Ceiling installation.

PRODUCT RANGE
