

Sustainability & ESG Assurance

The Issue

Environmental, Social and Governance (ESG) considerations are no longer optional. Investors, regulators, customers and employees expect businesses to demonstrate their sustainability commitments with clarity and credibility. Transparent ESG reporting builds trust, strengthens reputation and attracts capital — while poor or unsupported disclosures risk scrutiny, reputational damage and missed opportunities.

What we do for you

Trusted reporting. Responsible impact. Lasting value.

Our Sustainability & ESG Assurance services provide independent verification of your non-financial reporting, helping you demonstrate accountability and align with stakeholder expectations. We support you to:

- a. Provide assurance over ESG, sustainability and climate disclosures
- b. Align reporting with global standards and frameworks
- c. Assess internal controls and data quality underpinning ESG metrics
- d. Identify gaps and opportunities to enhance transparency and credibility
- e. Support boards and audit committees in understanding ESG risks and opportunities

The Benefits

The benefits to you are:

1. **Credibility** – Independent assurance gives confidence to investors, regulators and stakeholders.
2. **Compliance** – Stay ahead of evolving ESG disclosure requirements in Australia and globally.

3. **Clarity** – Assurance highlights strengths and areas for improvement in your reporting.
4. **Confidence** – Strengthen stakeholder trust through transparent and reliable communication.
5. **Value** – Position your business as forward-looking, responsible and attractive to capital providers.

What's next

Sustainability is not just about compliance — it's about building resilient, future-ready businesses. Independent ESG assurance gives you the confidence to communicate your impact with integrity.
