Secure and Premium Packaging Finishing

TAMPER SEAL

A plastic tamper seal band applied around the lid and neck of the container. This seal provides visible security and ensures the product has not been opened. **Standard version:** Transparent non-branded plastic seal.

FULL BODY SLEEVE

Full shrink sleeve applied over the entire container. The sleeve covers both the jar body and the lid. This creates full 360° artwork coverage and a strong shelf presence. Available for brands producing larger volumes.

Optional versions:

- Branded glossy printed seal,
- Branded chrome effect printed seal.

Optional versions:

- Branded glossy printed seal,
- Branded chrome effect printed seal.
