

LIBREO LinkedIn Post 2025-10-10:

🌐 Exploring EV Mobility in India: LIBREO's Next Growth Market 🚗⚡

At LIBREO, innovation knows no borders. We recently had an inspiring exchange with our partner, technology scout @Deepak Vachharajani, to explore how our intelligent charging solutions could transform the Indian EV market. The verdict? Highly promising – grid-friendly charging will be the driving force behind India's large-scale e-mobility rollout! 🚀

LIBREO key insights:

- ✅ Growing demand for business EV charging infrastructure in India
- ✅ Strong regulatory alignment between India and Germany
- ✅ Promising market conditions for LIBREO's technology stack
- ✅ Endless opportunities with strong partners and visionary investors shaping India's EV future

India's EV market is gaining remarkable momentum, and early research confirms that our German engineering standards align seamlessly with local needs. This opens up exciting prospects for expanding our technology internationally.

The exchange reaffirmed our core belief: blending local market expertise with proven German technology builds a powerful foundation for India's transition toward intelligent, sustainable e-mobility.

Thank you, Deepak, for this valuable partnership as we explore new horizons together! 🇮🇳
