## **INDEPENDENT AUDITORS' REPORT**

To the Board of Supervisors

Port Mansfield Public Utility District  
Raymondville, Texas

### **Opinions**

We have audited the accompanying financial statements of the business-type activities of the Port Mansfield Public Utility District (the "District"), as of and for the year ended May 31, 2022, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the business-type activities of the Port Mansfield Public Utility District, as of May 31, 2022, and the respective changes in financial position and cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

### **Basis for Opinions**

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the District, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

### **Responsibilities of Management for the Financial Statements**

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

(This page intentionally left blank)

## **Auditors' Responsibilities for the Audit of the Financial Statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

## **Required Supplementary Information**

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements.

(This page intentionally left blank)

We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

#### **Supplementary Information**

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The other supplementary information and Texas Supplementary Schedules are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the other supplementary information and the Texas Supplementary Schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

#### **Other Information**

Management is responsible for the other information included in the annual report. The other information comprises the introductory and statistical sections but does not include the basic financial statements and our auditors' report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

## Port Mansfield Utility District Management Discussion and Analysis

As management of Port Mansfield Public Utility District (the "District"), we offer readers of the District's financial statements this narrative overview of the financial activities of the District for the fiscal year ended May 31, 2022. We encourage readers to consider the information presented here.

### **Financial Highlights**

The District's revenues exceeded expenditures by \$67,944.

Revenues for water and sewer sales remained comparable to prior year. This is due to water and sewer rates remaining the same as well as no significant changes in customer accounts.

### **Overview of the Financial Statements**

The District maintains only an enterprise fund that reports financial statements similar to a private-sector business. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives.

The statement of net position presents information on all of the District's assets and liabilities with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The statement of revenues, expenses, and changes in net position presents information showing how the District's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of the related cash flows. Thus revenues and expenses are reported in this statement for some items that will only result in cash flows in the future fiscal periods.

The statement of cash flows reports how the District's cash and cash equivalents were used. It also reports how the District was provided with cash by its operating, non-capital financing, capital and related financing, and investing activities during the periods reported. The net of these activities is added to the beginning year cash balance to reconcile to the cash and cash equivalent balances at May 31, 2022. The District uses the direct method of presenting cash flows, which includes a reconciliation of operating activities to operating income.

The notes to the financial statements (starting on page 14) provide narrative explanations or additional data needed for full disclosure in the financial statements.

## Port Mansfield Utility District Management Discussion and Analysis

### Financial Analysis

Our analysis focuses on the net position (Table I) and changes in net position (Table II) of the District's operations.

**Net position:** The District's total net position at close of the most recent fiscal year is \$2,019,470. This amounted to an increase in net position of \$67,944.

Unrestricted net position – the part of net position that can be used to finance day-to-day operations without constraints established by debt covenants, enabling legislation, or other legal requirements was \$952,854 at May 31, 2022.

The increase in net position was the result of revenues exceeding expenses by \$67,944. Although there was a decrease in revenues and an increase in operating expenses, the District saw an increase in net position due to the continued operations.

**Capital Asset and Debt Administration**

**Capital Assets**

At May 31, 2022, the District had \$1,250,619 invested in capital assets net of depreciation.

The District purchased a new back hoe, a utility software, and also had a 5 mile waterline replaced for the year ended May 31, 2022. Additional information on the District's capital assets can be found in Note 3 of this report.

## Port Mansfield Utility District Management Discussion and Analysis

### **Debt**

On April 7, 2016, the District issued revenue bonds with a par value upon issuance of \$220,000 to provide funds for the acquisition and construction of major capital facilities. Revenue bonds pledge the revenues of the District's waterworks and sewer system. As of May 31, 2022, \$184,000 of the bonds remain outstanding.

Additional information on the District's debt can be found in Note 3 of this report.

### **Economic Factors and Next Year's Budgets and Rates**

The District's elected and appointed officials adopted a budget for the year ending May 31, 2023. The District's tax rate decreased by about 1% to \$0.061146 per \$100 for the 2022 tax year. Budgeted revenues exceed budgeted expenditures by \$112,600.

### **Contacting the District's Financial Management**

This financial report is designed to provide our citizens, taxpayers, customers, investors and creditors with a general overview of the District's finances and to demonstrate the District's accountability for the money it receives. If you have questions about this report or need additional financial information, contact the District's business office, (956) 689-3332, at 400 W. Hidalgo, Suite 200, Raymondville, Texas 78580.

# NOTES TO FINANCIAL STATEMENTS

## Port Mansfield Public Utility District Notes to Financial Statements

### NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Port Mansfield Public Utility District was created in February 1963 by Act of the Texas Legislature under the provisions of Section 59, Article XVI of the Texas Constitution.

#### ***Reporting Entity***

The Board of Supervisors (Board), a five member group constituting an on-going entity, is the level of government which has governance responsibilities over all activities within the jurisdiction of the Public Utility District. The Board is not included in any other governmental "reporting entity" as defined in Section 2100, *Codification of Governmental Accounting and Financial Reporting Standards*, since the Board members have decision making authority, the power to designate management, the responsibility to significantly influence operations and primary accountability for fiscal matters. The accounting policies of the District conform to generally accepted accounting principles (GAAP) as applied to governmental units. The more significant accounting policies used by the District are described below.

#### ***Measurement Focus, Basis of Accounting, and Financial Statement Presentation***

The accounting and financial reporting treatment is determined by the applicable measurement focus and basis of accounting. Measurement focus indicates the type of resources being measured such as *current financial resources* or *economic resources*. The basis of accounting indicates the timing of transactions or events for recognition in the financial statements.

The District's operations are presented as a single enterprise fund. Enterprise funds distinguish operating revenues and expenses from non-operating items in accordance with the flow of *economic resources measurement focus* and the *accrual basis of accounting*. All assets, liabilities, net assets, revenues and expenses are accounted for through a single enterprise fund with revenues recorded when earned and expenses recorded at the time liabilities are incurred. For this type of fund, the basic financial statements and required supplemental information consist of:

#### Management Discussion and Analysis (MD&A)

Enterprise fund financial statements consisting of:

- Statement of Net Position
- Statement of Revenues, Expenses and Changes in Net Position
- Statement of Cash Flows

Notes to the Financial Statements

Other Supplemental Information

Revenues from providing utility services are reported as operating revenues. All expenses related to operating the District are reported as expenses. Grants, taxes, interest and investment income are reported as non-operating income. Interest expense, financing costs and grant expenses are reported as non-operating expenses. Capital contributions, special and extraordinary items are reported separately after non-operating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, then unrestricted resources as they are needed.

**NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

***Budgetary Information***

*Budgetary basis of accounting*

Annual budgets are adopted on a basis consistent with generally accepted accounting principles for the enterprise fund. The appropriated budget is prepared by operations. The General Manager may make transfers of appropriations within operating expenses. Transfers of appropriations between operations require the approval of the Board. The legal level of budgetary control (i.e., the level at which expenses may not legally exceed appropriations) is at the level for total appropriations.

*Excess of expenditures over appropriations*

For the year ended May 31, 2022, total expenses exceeded total appropriations by \$35,648. This is considered a budgetary violation.

***Assets, Deferred Outflows, Liabilities, Deferred Inflows, and Net Position or Equity***

*Cash and Cash Equivalents*

Cash and cash equivalents include cash on hand, demand deposits, and short-term investments, such as certificates of deposit with a maturity of 90 days or less from the date of acquisition.

Restricted cash represents the amounts held in an escrow account at a separate bank for capital projects approved and financed by revenue bonds and loans issued and immediately forgiven by the Texas Water Development Board.

*Investments*

The only investments held by the District are certificates of deposit which are reported at cost because they are not transferable and they have terms that are not affected by changes in market interest rates.

*Accounts Receivable*

Receivables consist of utility billings and taxes that have not yet been collected. No allowance for doubtful accounts has been provided for utilities based upon historical collection experience. Property tax receivables are shown net of an allowance for uncollectible accounts. The estimated allowance for uncollectible taxes receivable is based on historical experience in collecting taxes.

**Port Mansfield Public Utility District**  
**Notes to Financial Statements**

**NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

***Restricted Assets***

Certain assets of the District are classified as restricted assets on the statement of net position because their use is limited by law through constitutional provisions or enabling legislation; or by restrictions imposed externally by creditors, grantors, contributors or laws or regulations of other governments. Special restricted asset accounts have been established to account for the sources and uses of these limited use assets as follows:

Restricted cash represents the amounts held in an escrow account at a separate bank for capital projects approved and financed by revenue bonds and loans issued and immediately forgiven by the Texas Water Development Board.

***Capital Assets***

Capital assets, which include water rights, equipment, and structures and improvements (e.g. water towers, storage tanks, treatment plants, and similar items), are reported in the in the District's financial statements. Capital assets are defined by the District as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of two years.

In the case of the initial capitalization of structures and improvements assets, the District chose to include all such items regardless of their acquisition date or amount. As the District constructs or acquires additional capital assets each period, including structures and improvements assets, they are capitalized and reported at historical cost. The reported value excludes normal maintenance and repairs which are essentially amounts spent in relation to capital assets that do not increase the capacity or efficiency of the item or increase its estimated useful life. Donated capital assets are recorded at their estimated acquisition value at the date of donation.

Water rights and construction in progress are not depreciated. All other assets which include vehicles, structures, improvements and equipment are depreciated using the straight line method over the following estimated useful lives:

| <u>Assets</u>               | <u>Years</u> |
|-----------------------------|--------------|
| Vehicles                    | 7            |
| Structures and improvements | 50           |
| Equipment                   | 5-40         |

***Compensated Absences***

The District's policy permits employees to accumulate earned but unused vacation benefits, which are eligible for payment upon separation from government service. The liability for such leave is reported as incurred in the enterprise fund financial statements. The liability for compensated absences includes salary-related benefits, where applicable. Upon an employee's termination of employment with the District, only the employee's accrued vacation balance is paid out and it is paid out at 100%.

It is the District's policy to permit employees to accumulate earned but unused vacation pay benefits. Employees with less than five years of service with the District earn 3.08 hours of paid vacation time per pay period. Employees with over five years of service earn 4.62 hours of paid vacation time per pay period.

## Port Mansfield Public Utility District

### Notes to Financial Statements

#### NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

##### *Long-Term Obligations*

Long-term debt and other long-term obligations are reported as liabilities in the District's statement of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds and is recorded as an adjustment to interest expense. Bonds payable are reported net of the applicable bond premium or discount. In accordance with GASB Codification Section 130: *Interest Costs – Imputation*, bond issuance costs are expensed in the period incurred except for prepaid insurance costs.

##### *Revenues and Expenses*

*Property taxes* – Property taxes attach as an enforceable lien on real property and are levied as of October 1st. Taxes are due on receipt of the tax bill and are delinquent if not paid before February 1 of the year following the year in which imposed. On January 1 of each year, a tax lien attaches to property to secure the payment of all taxes, penalties, and interest ultimately imposed. The tax rate assessed was .06838 per \$100 of valuation for the year ended May 31, 2022.

*Operating and non-operating revenues and expenses* – The District's financial statements distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with the District's principal ongoing operations. The principal operating revenues of the enterprise fund are charges to customers for sales and services. The enterprise fund also recognizes as operating revenue the portion of tap fees intended to recover the cost of connecting new customers to the system. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

##### *Uses of Estimates*

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimated.

##### *Subsequent Events*

Management has evaluated subsequent events through the date that the financial statements were available to be issued, September 29, 2022. No subsequent events occurring after this date have been evaluated for inclusion in these financial statements.

## Port Mansfield Public Utility District

### Notes to Financial Statements

#### NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

##### *Recently Issued and Implemented Accounting Pronouncements*

In fiscal year 2022, the District has implemented GASB 87, *Leases*. The objective of this Statement is to better meet the information needs of financial statement users by improving accounting and financial reporting for leases by governments. This Statement increases the usefulness of governments' financial statements by requiring recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on payment provisions of the contract. It establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. Under this Statement, a lessee is required to recognize a lease receivable and a deferred inflow of resources, thereby enhancing the relevance and consistency of information about governments' leasing activities. Management has evaluated the implementation of this standard and determined it has no material impact on the District's financial statements.

#### NOTE 3: DETAILED NOTES ON ALL FUNDS

##### *Deposits and Investments*

The District's deposits, including certificates of deposit, were fully insured or collateralized as required by the state statutes at May 31, 2022. At year-end, the respective bank balance totaled \$866,673. Of the total bank balance, \$250,000 of the District's bank balances is covered by federal depository insurance (FDIC). The remainder was covered by collateral with a value of \$629,115.

*Custodial Credit Risk* - State law requires governmental entities to contract with financial institutions in which funds will be deposited to secure those deposits with insurance or pledged securities with a fair value equaling or exceeding the amount on deposit at the end of each business day. The pledged securities must be in the name of the governmental entity and held by the entity or its agent. The District's deposit balance was fully collateralized all year and as a result, the District believes it has no custodial credit risk for deposits. In addition, all of the District's investments are registered in the District's name; therefore the District is not exposed to custodial credit risk.

*Interest Rate Risk* - Interest rate risk is the possibility that interest rates will rise and reduce the fair value of an investment. To limit the risk that changes in interest rates will adversely affect the fair value of investments, the District requires investments to have maturities of less than one year on a weighted average maturity basis.

*Credit Risk* - Section 150: *Investments* of the GASB Codification requires that governments provide information about credit risk associated with their investments by disclosing the credit rating of investments in debt securities as described by nationally recognized statistical rating organizations. To limit the risk that an issuer or other counterparty to an investment will not fulfill its obligation, the District limits investments to certificates of deposit.

*Concentration Credit Risk* - Section 150: *Investments* of the GASB Codification requires disclosures of investments in any one issuer that represents five percent or more of total investments, excluding investments issued or explicitly guaranteed by the U.S government, investments in mutual funds, external investments pools and other pooled investments. As of May 31, 2022, bank certificates of deposit represent 100% of the portfolio.

## Port Mansfield Public Utility District

### Notes to Financial Statements

#### NOTE 3: DETAILED NOTES ON ALL FUNDS (Continued)

##### *Deposits and Investments (Continued)*

*Investments Authorized by Debt Agreements* - Investment of debt proceeds held by the loan trustee are governed by the provisions of the debt agreement rather than the general provisions of the Public Funds Investment Act (Government Code Chapter 2256) or the District's investment policy. The restricted cash held in escrow at BOK Financial is held in the type of account that is authorized by the loan agreement (money market mutual fund) and as such does not expose the District to interest rate risk, credit risk or concentration of credit risk.

##### *Compliance with the Public Funds Investment Act*

The Public Funds Investment Act (Government Code Chapter 2256) authorizes the District to invest in funds under a written investment policy. The primary objectives of the District's investment strategy, in order of priority, are preservation and safety of principal, liquidity and yield. The District is authorized by law to invest in the following investment instruments provided that they meet the guidelines established in the investment policy: (1) obligation of the U. S. Treasury, certain U. S. agencies, and the State of Texas, (2) certificates of deposits, (3) certain municipal securities, (4) money market savings accounts, (5) repurchase agreements, (6) bankers acceptances, (7) mutual funds, (8) investment pools, (9) guaranteed investment contracts, (10) and common trust funds. The Act also requires the entity to have independent auditors perform test procedures related to investment practices as provided by the Act. Port Mansfield Public Utility District believes it is in substantial compliance with the requirements of the Act.

The following table sets forth the District's cash balances as of May 31, 2022

|                                                 |                  |
|-------------------------------------------------|------------------|
| Cash                                            |                  |
| Petty cash                                      | \$ 225           |
| Cash in demand deposit at First Community Bank  | 810,333          |
| Restricted cash held in escrow at BOK Financial | 40,754           |
|                                                 | <hr/>            |
| Total cash                                      | <u>\$851,312</u> |

As of May 31, 2022, Port Mansfield Public Utility District had only the certificate of deposit in the amount of \$81,625 as an investment and is recorded at cost.

##### *Accounts Receivable*

For the enterprise funds, operating revenues are generally recognized on the basis of cycle billings rendered monthly. The amount of unpaid services delivered for the period from the last billing date to May 31, 2022 is accrued at year end. The District deems all amounts collectable therefore an allowance for doubtful accounts is not necessary. If payments are not received from customers, services are shut off and deposits are applied against negative balances.

**Port Mansfield Public Utility District**  
**Notes to Financial Statements**

**NOTE 3: DETAILED NOTES ON ALL FUNDS (Continued)**

***Accounts Receivable (Continued)***

All account receivables are shown net of allowances for uncollectable accounts for the District. The accounts receivable and allowance for uncollectible accounts at May 31, 2022, were as follows:

|                                    | Utilities       | Ad Valorem<br>Taxes | Other<br>Taxes | Capital<br>Improvement |
|------------------------------------|-----------------|---------------------|----------------|------------------------|
| Receivable                         | \$59,930        | \$6,237             | \$1,713        | \$8,783                |
| Less: allowance for uncollectibles | -               | (2,186)             | -              | -                      |
| <b>Total receivables</b>           | <b>\$59,930</b> | <b>\$4,051</b>      | <b>\$1,713</b> | <b>\$8,783</b>         |

There are no other reserves for receivables recorded by the District as of May 31, 2022.

***Capital Assets***

The following is a summary of changes in capital assets during the year ended May 31, 2022:

**Notes to Financial Statements**

**NOTE 3: DETAILED NOTES ON ALL FUNDS (Continued)**

***Long-Term Debt and Liabilities***

*Water and Sewer Bond payable*

On April 7, 2016, the District issued revenue bonds with a par value upon issuance of \$220,000 with an interest rate of 1.73% to provide funds for the acquisition and construction of major capital facilities. Revenue bonds pledge the revenues of the District's waterworks and sewer system. Principal and interest are payable semiannually on April 1 and October 1 of each year. As of May 31, 2022, \$184,000 of the bonds remain outstanding. The following is a schedule of bonds outstanding at May 31, 2022:

| Description                                               | Interest |               | Bonds Outstanding<br>May 31, 2022 |
|-----------------------------------------------------------|----------|---------------|-----------------------------------|
|                                                           | Rates    | Dates Payable |                                   |
| Waterworks and Sewer System<br>Revenue Bonds, Series 2016 | 1.73%    | 10/01; 04/01  | \$184,000                         |

The Series 2016 bonds maturing on April 1, 2026 and thereafter are subject to redemption in whole, or from time to time in part, at the option of the District, prior to their maturity dates or any date thereafter. Upon redemption, the bonds will be payable at a price of par plus accrued interest to the date of redemption.

The annual debt service requirements to maturity for revenue bonds are as follows:

|                     | Principal        | Interest         | Total<br>Requirements |
|---------------------|------------------|------------------|-----------------------|

|                                            | Business-Type<br>Activities |
|--------------------------------------------|-----------------------------|
| Capital assets (net)                       | \$1,250,619                 |
| Outstanding debt related to capital assets | (184,000)                   |
| Net investment in capital assets           | \$1,066,619                 |

### NOTE 4: RETIREMENT PLAN

The District provides pension benefits for all of its full-time employees through a defined contribution plan. In a defined contribution plan, benefits depend solely on amounts contributed to the plan plus investment earnings. Employees are eligible to participate after approximately one year's service. The District contributes 5% of the employee's base salary each month. Contributions to the plan for the year ended May 31, 2022 were \$11,052.

### NOTE 5: RISK MANAGEMENT

The District is exposed to various risks of loss related to torts, theft of, damage to, and destruction of assets, errors and omissions, injuries to employees, and natural disasters. The District is a member of the Texas Municipal League Intergovernmental Risk Pool, a joint self-insurance pool of Texas Political Subdivisions, which provides workers' compensation coverage and liability and property coverage for the District based upon a sharing of risk by the members of the pool.

The District continues to carry commercial insurance for the risk of loss from employer dishonesty and for the bonding of its directors. There have been no claims resulting from these risks in any of the past three fiscal years. There has been no significant reduction in insurance coverage from coverage in the prior year.

## Port Mansfield Public Utility District

### Notes to Financial Statements

#### **NOTE 6: COMMITMENTS AND CONTINGENCIES**

In March 2020, the World Health Organization made the assessment that the outbreak of a novel coronavirus (COVID-19) can be characterized as a pandemic. As a result, uncertainties have arisen that may have a significant negative impact on the operating activities and results of the Organization. The occurrence and extent of such an impact will depend on future developments, including (i) the duration and spread of the virus, (ii) government quarantine measures, (iii) voluntary and precautionary restrictions on travel or meetings, (iv) the effects on the financial markets, and (v) the effects on the economy overall, all of which are uncertain.

#### **NOTE 7: RELATED ORGANIZATION**

The District officials of the Willacy County Navigation District are responsible for appointing the members of the Board of the Port Mansfield Public Utility District, but the Willacy County Navigation District's accountability for the Port Mansfield Public Utility District does not extend beyond these appointments. The Willacy County Navigation District does not provide funding, has no obligation for the debt issued by the Port Mansfield Public Utility District, and cannot impose its will on the Port Mansfield Public Utility District.

#### **NOTE 8: COMPLIANCE AND ACCOUNTABILITY**

In accordance with GASB Statement No. 38, "Certain Financial Statement Note Disclosures," violations of finance related legal and contractual provisions, if any, are reported below, along with actions taken to address such violations:

At May 31, 2022, the District was in compliance with the provisions of the Series 2016 Waterworks and Sewer System Revenue bond covenants.

**Port Mansfield Public Utility District**  
**Notes to Financial Statements**
