A seductive collision of angular refinement and soft finishes. Unapologetically modern, bold bezel settings in rich brushed 18k gold and platinum frame natural diamonds and rare gemstones in unexpected shapes and colours. Stacking rings, bangles and hoops with knife-edge silhouettes, radiate a distinctly rebellious spirit. This is power jewellery - architectural and striking.

Built on the purity of the hexagon, Seven Twenty is a love letter to geometry. Strong, versatile and endlessly modular, this collection plays with proportion in natural diamonds, coloured gemstones and sculpted gold forms. Tennis bracelets and necklaces with round, square, marquise and triangle natural diamonds add the unexpected to elegance.

The H&H signature collection, Facet offers an expression of contrast, texture and light from polished 18k yellow or white gold with black rhodium accents. Every piece is a homage to rock and roll elegance with a razor sharp edge. Faceted beads and bangles reflect light and move with unruly sophistication, and lozenge-shaped pendants add colour with pave rubies, sapphires, emeralds or diamonds.

A R M O U R
D ' A M O U R

Henry & Henry's most show-stopping collection. Limited pieces and unique gemstones sourced from across the globe, fused with the finest craftsmanship that creates a show-stopping impact. This is high jewellery for those who don't whisper—they make an entrance.

A modern Cleopatra moment: cascading emeralds set in 18ct yellow and white gold, with a black rhodium finish. Crafted to drape with sculptural grace, this Armour D'Amour collar captures power and allure in equal measure, commanding presence with spell binding sensuality.

This collar started its journey with the spectacular discovery of an extraordinarily rare 34-carat Colombian emerald. H&H enlisted the skills of London's finest artisans to transform the stone into a striking modern choker with a unique closure that has to be seen to be believed.

A 42ct Royal Blue Ceylon sapphire is used as the centre gemstone for this magnificent ring. Crafted in 18k yellow gold and set with over 250 champagne diamonds.

Armour D'Amour Rathna Blue Sapphire Ring

POA

This 42ct oval shaped Ceylon sapphire - rich with provenance - was hand-selected during our most recent trip to Sri Lanka. From the storied gem fields of Ratnapura to the masterful setting of the Armour D'Amour collection, it embodies a heritage of beauty shaped over centuries. The luminous blue of Ceylon remains unmatched: a colour once coveted by kings, now recast in sculptural modernity.

A bold, sculptural ring crafted in 18k yellow gold and set with 5.50ct of diamonds. Its sensual lines and inverted diamonds evoke the confident passion of Armour D'Amour – statement strength designed for fearless elegance day or night.

Armour D'Amour Punk Diamond Ring

£26,000

Crafted with conscience and character, the Punk Bombay Diamond Ring is set entirely with repurposed antique diamonds — each one hand-selected for its individuality and story. These are not the flawless whites of convention, but nuanced tones of champagne, grey and light cognac. By giving new life to historic stones, we honour their origins and reduce the need for new mining - creating modern jewels with integrity, depth, and soul.

Inspired by mythic tides, aquamarine and coral shimmer, set within sculpted platinum forms. The Thetis Collar embodies Armour D'Amour's confident sensuality – a statement of oceanic strength and serene luminosity, crafted for modern goddesses of impeccable poise.

Armour D'Amour *Thetis Collar*

POA

At its heart lies a 38.64 carat Santa Maria aquamarine, sourced from the legendary mines of Brazil - famed for producing stones of unparalleled purity and depth. Its vivid sea-blue hue radiates calm power, balanced by the warmth of hand-carved coral that glows with organic life. Together they create a composition of contrasts: ocean and ember, serenity and strength, captured in sculptural platinum. Each element is chosen for its provenance and spirit.
