#### Primary brand font

Roboto is the primary font family for DeepTempo. Headlines should be set in bold, and body copy in regular. It can be accessed via Google fonts.

ABCDEFGHIJKLMNOPQRSTUVWXYZ

abcdefghijklmnopqrstuvwxyz

0123456789

!@#\$%^&\*()

### Secondary brand font

IBM Plex Mono is the secondary font family for DeepTempo. It can be used for eyebrows, tags, and CTA's. It should be set in all caps and eyebrows should have letter spacing of 20%. It can be accessed via Google fonts.

ABCDEFGHIJKLMNOPQRSTUVWXYZ

0123456789

!@#\$%^&\*()

#### Font usage

This is a headline example with eyebrow and subhead text. It has Roboto bold and regular, and IBM Plex Mono regular.

SUPER CHARGE YOUR SECURITY

# Stop cyber attacks your tools can't see

DeepTempo's LogLM detects the hardest-to-see cyberattacks — behaviors that bypass rules, signatures, and even AI-based anomaly systems.
