

## Chapter 05 | Cleaning Care & Maintenance Standards

### 05.04 Cleaning Care: Other

The following cleaning and maintenance standards shall be applied daily and during the quality assurance inspection process to assess the quality of cleaning and maintenance performance. Repairs shall be performed to keep the facility open and operating according to the department's objective of providing a clean, safe, and comfortable facility to the public.

#### Floors

Shall be free of dust, dried-soil, gum, spots, stains, and debris. Floors shall appear visibly and uniformly smooth and clean. This shall include the elimination of dust streaks, lint, standing water, cleaner residue, and film.

#### Walls

Shall be free of dust, soil, and cobwebs. They shall appear visibly and uniformly clean. This shall include the elimination of film, streaks, and cleaner residue.

#### Utility Sinks

Shall be free of dust, soil, cleaner residue, and soap film. Utility sinks shall appear visibly and uniformly clean. This shall include the elimination of streaks, embedded soil, film, and water spots. Bright work shall be cleaned, descaled, and polished.

#### Shelves

Shall be free of dust and soil. They shall appear visibly and uniformly clean. Supplies and equipment shall be stocked, labeled, and organized neatly on the shelves.

#### Janitor Carts

Shall be free of dust and soil. They shall appear visibly and uniformly clean. Supplies and equipment stored on janitor carts shall also be free of dust and soil, labeled, and organized neatly.

#### Organization

All items should be stored in appropriate places, i.e., shelves, tool storage, rake storage, etc. No items should be laying on the floors or up against the walls. They shall appear visibly and uniformly clean.
