

Marine Creek Cuts Overtime by 20% with Covr.

KEY IMPACTS

20%

Reduction in overtime

26%

Decrease in unscheduled hours.

“Covr has been an excellent addition to our facility’s operations, and we look forward to continuing to use it. The user-friendly interface and the training provided have made the transition smooth, and the staff appreciate the convenience it offers.”

Matthew Hernandez,
Staffing Coordinator
Marine Creek

Overview

Marine Creek Nursing and Rehabilitation, an affiliate of Creative Solutions in Healthcare, faced workforce inefficiencies that drove up labor costs and created operational challenges. Leadership needed a solution to streamline scheduling, improve communication, and reduce unnecessary overtime.

The Challenge

Marine Creek implemented Covr to centralize workforce management and automate scheduling.

Real-Time Scheduling Insights

“We particularly appreciate the scheduling features, which have made it much easier to manage shifts and ensure coverage,” said Matthew Hernandez, Staffing Coordinator at Marine Creek. “The ability to post and fill open shifts seamlessly has been a game-changer for us.”

Improved Communication

“The messaging center has been a valuable tool for communication,” said Matthew. “It allows us to quickly disseminate information and coordinate with our staff, which has improved overall efficiency and response times.”

Data-Driven Staffing Decisions

“Utilizing Covr has definitely contributed to a decrease in overtime and missed lunches, said Matthew. “The software’s ability to optimize schedules and provide updates has helped us manage our workforce more efficiently.”
