

Moss Chair

The Moss Chair is a collaboration between Lauren Goodman and fashion & textile designer, Amalya Meira. The work merges their distinct practices, underscoring a shared commitment to sustainable design across objects and garments. The armature is made from abandoned lobster traps salvaged off the coast of Maine. The upholstery is made from hand-dyed, recycled sari silk sourced from a small mill in Mumbai and meticulously crocheted onto the chair's surface.

SALVAGED LOBSTER TRAP/POWDER COAT FINISH
CROCHETED UPHOLSTERY
18" X 18" X 32"
