WHY ZINO

A CURATED COLLECTION,  
NOT A CATALOGUE.

Zinodeck stocks the Tarimatec collections, profiles, and accessories that fit how Canadian projects are built and specified. This price list reflects that curation: the decking systems we carry, the accessories required to install them, and the project support behind every order.

---

**31**

CURATED COLOURS

Across Chromatic, Wood, Ethnic and Coex collections.

**3**

PROFILES

Hollow, Solid, and Coex co-extruded surfaces.

**25 YR**

WARRANTY

Limited warranty on Tarimatec composite decking.

**EPD**

VERIFIED

EPD byTecnalia · ISO 9001· ISO 14001 · GBCe.

---

## DECKING

# CHOOSE THE PROFILE THAT FITS THE JOB.

One design language. Two structural answers. Both profiles share the same Ecofiber Stone Composite formulation and finish quality. The difference is structural weight and load capacity.

CHROMATIC

FIVE CLEAR TONES.  
TWO SURFACE EXPRESSIONS.

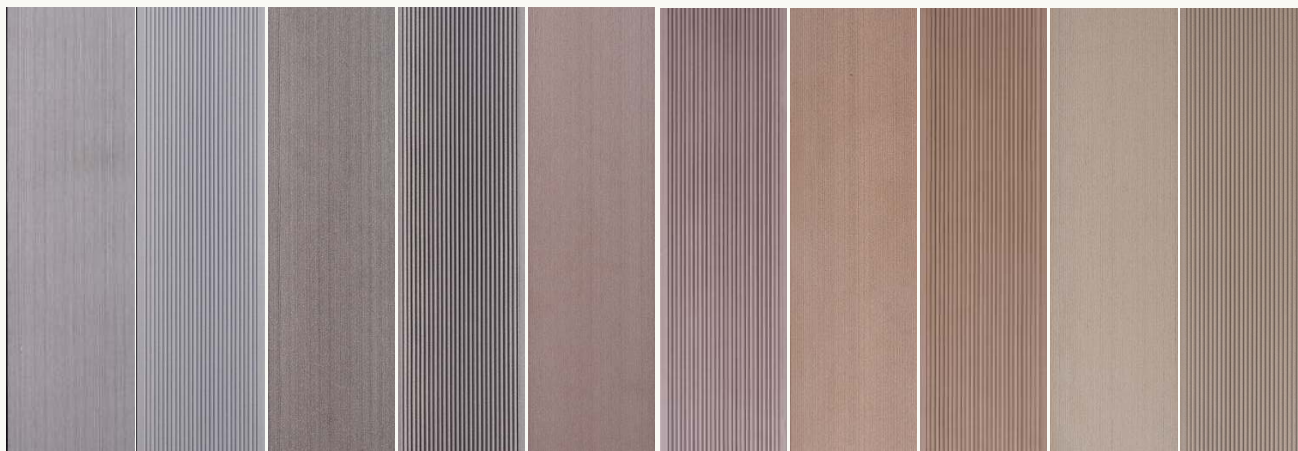

Chromatic is the most disciplined collection in the Canadian range: five flat, contemporary tones chosen for projects that want visual order, contrast, and architectural calm.

Use Nature for a softer brushed expression or Tecno for a more linear, grooved surface.

| SIZES                                                                                                                                                                                                                                                                                                                                                                                                                                           | FINISHES                                                                                                                                                                                                                            |

WOOD

THE WARMTH OF WOOD, IN A MATERIAL  
MADE TO STAY THAT WAY.

Wood captures the grain, depth, and variation people want from natural timber while replacing the maintenance burden that usually comes with it. Fourteen tones give residential, hospitality, and commercial projects a warmer visual language without sacrificing practicality.

| SIZES                                                                                                                                                                                                                                                                                                                                                                                                                               | FINISHES                                                                                                          |

ETHNIC

MORE TEXTURE.  
MORE CHARACTER.

Ethnic adds tactility and personality through a subtle grooved-and-brushed surface. It is the most expressive collection in the Canadian assortment: ideal for projects that want visual movement, depth, and a finish that feels intentionally designed rather than merely installed.

| SIZES                                                                                                                                                                        | FINISHES                                                                                                 |

## PROJECT SUPPORT

# SAMPLE KITS, DISPLAYS, AND THE TECHNICAL MATERIALS BEHIND EVERY SPECIFICATION.

Zinodeck supports projects from first colour decision through specification and on-site installation. Sample kits, dealer displays, and the technical manual are listed below. Project consultations and builder referrals are available on request at no charge.

| ITEM                                                                  | PRICE · CAD |
|-----------------------------------------------------------------------|-------------|
| <b>Sample Box</b><br>Caja de muestras · full Canadian range           | \$54.40     |
| <b>Mini Case</b><br>Mini estuche · pocket-format swatch case          | \$54.40     |
| <b>Display Set</b><br>Juego display · dealer-grade collection display | \$375.00    |
| <b>Exhibitors Set</b><br>Juego expositores · point-of-sale display    | \$193.15    |
| <b>Technical Manual</b><br>Manual técnico · installation reference    | \$18.75     |
| <b>Product Catalog</b><br>Catálogo producto                           | \$9.40      |
| <b>Projects Catalog</b><br>Catálogo proyectos                         | \$9.40      |
| <b>Surface Degreaser</b><br>Desengrasante · maintenance product       | \$37.50     |

*Sample-kit cost is fully credited against any order over \$5,000 CAD net. Builder and designer accounts qualify for a complimentary Mini Case on first qualified consultation.*

# GENERAL TERMS & CONDITIONS

## CANADA

---

### ORDERS

Orders must be sent by email to [orders@zinodeck.ca](mailto:orders@zinodeck.ca). Orders are not considered firm until accepted in writing by Zinodeck. Special-order colours, profiles, or dimensions are non-returnable.

### CUSTOMER SERVICE HOURS

Monday to Thursday, 8:30 to 17:30 Eastern. Friday, 8:30 to 14:30 Eastern.

### PRICING & CURRENCY

All prices in Canadian dollars (CAD), exclusive of GST, HST, PST, QST, freight, and installation. Reference exchange rate at publication: €1.00 = CAD \$1.50, sourced from Bank of Canada on 28 April 2026. This price list is valid for 90 days from publication. Final price is confirmed at order acknowledgment. Orders are subject to a currency adjustment if the EUR/CAD reference rate moves more than ±5% at confirmation.

### LEAD TIMES

Stock items: 2–4 weeks ex-Toronto. Special-order colours, profiles, and non-stock quantities: 8–12 weeks from order confirmation.

### FREIGHT

Freight is quoted separately by destination. Orders with a taxable base above \$10,000 CAD ship freight-prepaid to project sites within Ontario, Quebec, and British Columbia metro zones. Freight to other provinces is quoted on confirmation.

### PAYMENT

- First order: prepaid by wire transfer or e-transfer.
- Repeat customers: net 30 days subject to credit approval.

- Maximum payment term on any order: 60 days.
- Pre-authorized debit (PAD) authorization required for net-term accounts.

### TITLE AND RISK

Title to delivered material remains with Zinodeck until full payment is received. Risk transfers on delivery.

### INSPECTION AND CLAIMS

The receiver must inspect the shipment on delivery and record any visible damage on the carrier's bill of lading. Claims for damage, shortage, or defect must be submitted in writing to [claims@zinodeck.ca](mailto:claims@zinodeck.ca) within 5 days of receipt. No return will be accepted after that window.

### WARRANTY

Tarimatec composite decking carries a 25-year limited warranty against structural defect under normal residential use, in accordance with the Tarimatec warranty policy. Commercial application warranties are quoted on a project basis. Warranty does not cover damage from improper installation, abuse, or use outside the technical manual.

### SPECIAL CUSTOMER TERMS

Any condition of purchase set by a customer that contradicts these terms applies only when accepted in writing by Zinodeck.

### JURISDICTION

Disputes are subject to the laws of the Province of Ontario and the courts of the City of Toronto.
