OUR PROMISE
No one carries it alone.

MY PARTNERSHIP MATTERS

There is a place for community in healing.

Life's hardest moments rarely fit neatly into one category. Grief can follow the death of someone we love, but it can also appear through illness, pregnancy loss, infertility, divorce, caregiving, job loss, identity changes, and other major transitions.

Partnership allows Light of Grief to keep healing experiences accessible, build trusted resources, strengthen compassionate support, and grow intentionally without losing the community-centered heart of our work.

Our Three Areas of Impact

Gather & Heal	Healing-centered gatherings create space for reflection, connection, and community.
Learn & Grow	Trusted resources, education, and conversations that help people navigate grief and life's transitions.
Held in Care	Care navigation, healing access, practical assistance, health and recovery support, and community care.

Our 2026–2027 Growth Vision

Our working annual program and operating budget is approximately \$127,000. This reflects the real cost of monthly community programming, educational resources, Held in Care, organizational infrastructure, and sustainable part-time leadership.
