ROSÉ & ORANGE

THE BEST PAIRING FOR THE TEXAS SUMMER

Orange wine is made using white grapes with red wine production techniques, using longer macerations to extract color and tannin that is normally excluded from white wine production.

The result is a more weighty and unctuous style of wine.

GERMANY & AUSTRIA

PROOF THAT NOT ALL RIESLING IS SWEET

Germany is the birthplace of Riesling, a resilient and cold hardy grape that can survive the extreme temperatures of the German winter.

While the perception of Riesling is skewed towards sweet wines, some of the finest examples are fermented fully dry.

BORDEAUX

THE WINE CAPITOL OF THE WORLD

Bordeaux uses blending to achieve balance even through challenging vintages.

The Left Bank tends towards blends of Cabernet Sauvignon blended with Merlot, and the Right Bank tends towards Merlot blended with Cabernet Franc.

Most producer blends are different year after year to capture the best they have to offer from that vintage.
