CORAVIN SELECTIONS

The Coravin allows us to extract wine through the cork and leave a protective layer of Argon gas behind. This ensures the remaining wine stays fresh for a prolonged period of time.

Try some of the good stuff without committing to a full bottle.

ROSÉ & ORANGE

THE BEST PAIRING FOR THE TEXAS SUMMER

Orange wine is made using white grapes with red wine production techniques, using longer macerations to extract color and tannin that is normally excluded from white wine production.

The result is a more weighty and unctuous style of wine.

BORDEAUX

THE WINE CAPITOL OF THE WORLD

Bordeaux uses blending to achieve balance even through challenging vintages.

The Left Bank tends towards blends of Cabernet Sauvignon blended with Merlot, and the Right Bank tends towards Merlot blended with Cabernet Franc.

Most producer blends are different year after year to capture the best they have to offer from that vintage.
