Quick Referrals and Access to Images

The Abbadox Referring Provider Portal gives you and your team real-time visibility into the imaging process, helping you deliver faster answers and more coordinated care.

Simple Set Up

- Provide the names and email addresses of your staff who schedule imaging.
- Include the names and NPI numbers of the referring physicians.
- We will create your account and notify you when your access is ready.
- A step-by-step portal user guide can be found on our website at iowaradiology.com/referring

[Request Portal Access](#)

Save Time, Track Results

- Request appointments securely online.
- Track patients through their imaging journey (have they scheduled an appointment? been seen? no showed?).
- Access results quickly, view finalized reports as soon as they are ready.
- View images directly in the system, access diagnostic images instantly with no additional software, plugins or IT setup required.

Even if the order is not placed through the portal, you can still follow your patient's appointment status, review imaging, and results.

Prior Authorizations

Iowa Radiology has a team who focuses on **imaging prior authorizations** and can do this for your practice. The service is free and simply requires the completion of this form. Questions? Please call (515) 226-7449.
