Job Description:

This is an entry level opportunity for that individual looking to jump start their career. Our employees are our most important assets. They are productive, challenged, well-trained, and promoted.

This position performs field activities associated with supporting the installation, maintenance, and servicing of heating, ventilating and air conditioning systems for residential and commercial customers.

Duties include:

- Assist with on-site preventative maintenance, routine repair and calibration after installation.
- Uses technical abilities to maintain systems.
- Works in a team-based environment to share information and workload while ensuring customer satisfaction.
- Must work in a safe manner daily and ensure that all safety measures are always taken.
- Must have a valid driver's license and clean driving record.
- Performs other duties as assigned.
- Flexibility to work overtime, on-call and weekends required.

Physical Requirements:

Technicians and Apprentices must be able to safely:

- Get themselves and necessary tools/equipment onto the rooftop – typically via fixed/extension ladder.

- Work at heights
- Load and unload tools/equipment from work van
- Lifting occasionally up to 75lbs.
- Lifting to shoulder and overhead occasionally up to 25 lbs.
- Push/pull wheeled cart up to 150 lbs.
- Climb ladder up to roof height.
- Extend reach overhead in a repetitive motion.

Qualifications:

- High School diploma or GED equivalent
- Valid Driver's License and acceptable driving record
- Ability to climb ladders.
- Moderate lifting (up to 90 pounds)
- Ability to complete repairs and required paperwork.
- Driven to succeed and able to work with supervision.
- Periodically 'on call' for service coverage
- Local travel may be required

WE VALUE DIVERSITY

Here at A&H Air Conditioning and Heating & Plumbing, Inc, we believe that diversity and inclusion is critical to our success as a company. A&H Air Conditioning and Heating & Plumbing, Inc is an equal opportunity employer.
