

INVEST IN A SAFER AVONDALE - IMPROVE RESPONSE TIMES

Quality public safety services help protect your property values and play a key role in our ability to attract residents and businesses. Proposition 418 is a critical investment in our quality of life and our long-term economic growth. Building additional public safety facilities will help reduce response times citywide and assist in the training of our first responders. Voting Yes on Prop 418 will ensure that Avondale's first responders can be there when we need them most. Learn More at www.SaferAvondale.com.

LEARN MORE ABOUT PROPOSITION 418

This November, Avondale voters are being asked to authorize up to \$55 million in general obligation bonds to provide funding for public safety facility improvement projects and training facilities. Building additional public safety facilities will help reduce response times citywide and ensure our first responders are highly trained.

Proposition 418 invests in public safety including:

- New Fire/Police Substation to reduce citywide response times and improve safety
- New Public Safety Headquarters
- Police Firearms Training Facility
- Main Police Station Expansion
- City Court Office Expansion

NOT A TAX RATE INCREASE:

The City of Avondale is committed to keeping taxes stable and has crafted this bond proposal to invest in infrastructure without raising the City's overall property tax rate. The City will issue new bonds as old bonds are paid off.
