➤ Enhanced Child Care Referrals

The CCRR maintains a database of licensed child care facilities for the communities we serve. The CCRR reviews each parent's request using our database of child care programs to help determine special requests and care needs, hours of operation, ages of children, location, and school's serviced. The CCRR will then provide parents with information (both written and/or verbal) on child care to help inform them of their child care options. The CCRR will provide referrals that most closely match the family's request, including those with vacancies.

Child care workforce can provide CCRR staff with additional information regarding their facilities such as:

- Programming information
- Qualifications of care provider(s)
- Hours of operation
- Languages spoken
- Schools served, etc.

This information is of great interest to parents who are searching for child care and it is to your advantage to provide these details. There may be times when you will need to make changes to your profile. Your updates can be made by calling the Prince George office at 250-563-2483 or filling out our [Program Information form](#).
