

The 'Crown' – Ring with Patch Panel Mounting (Demarcation Point)

- **What it is:** A containment ring with options for mounting patch panels directly above each rack.
- **Why it matters:** This solution delivers a clean, circular pathway for fibre distribution, keeping cabling organised, scalable, and easy to access. It supports MTP/MPO BASE-24 connectivity—accommodating up to 3,456 fibres in just 2U—and uses cable falls to guide top-over-rack, point-to-point cable runs as they enter and exit each cabinet. The result is maximum efficiency today and a future-proof foundation for high-density network environments.
- **The name:** A crown sits above and brings order — this design offers a structured, elevated solution that improves both efficiency and control.

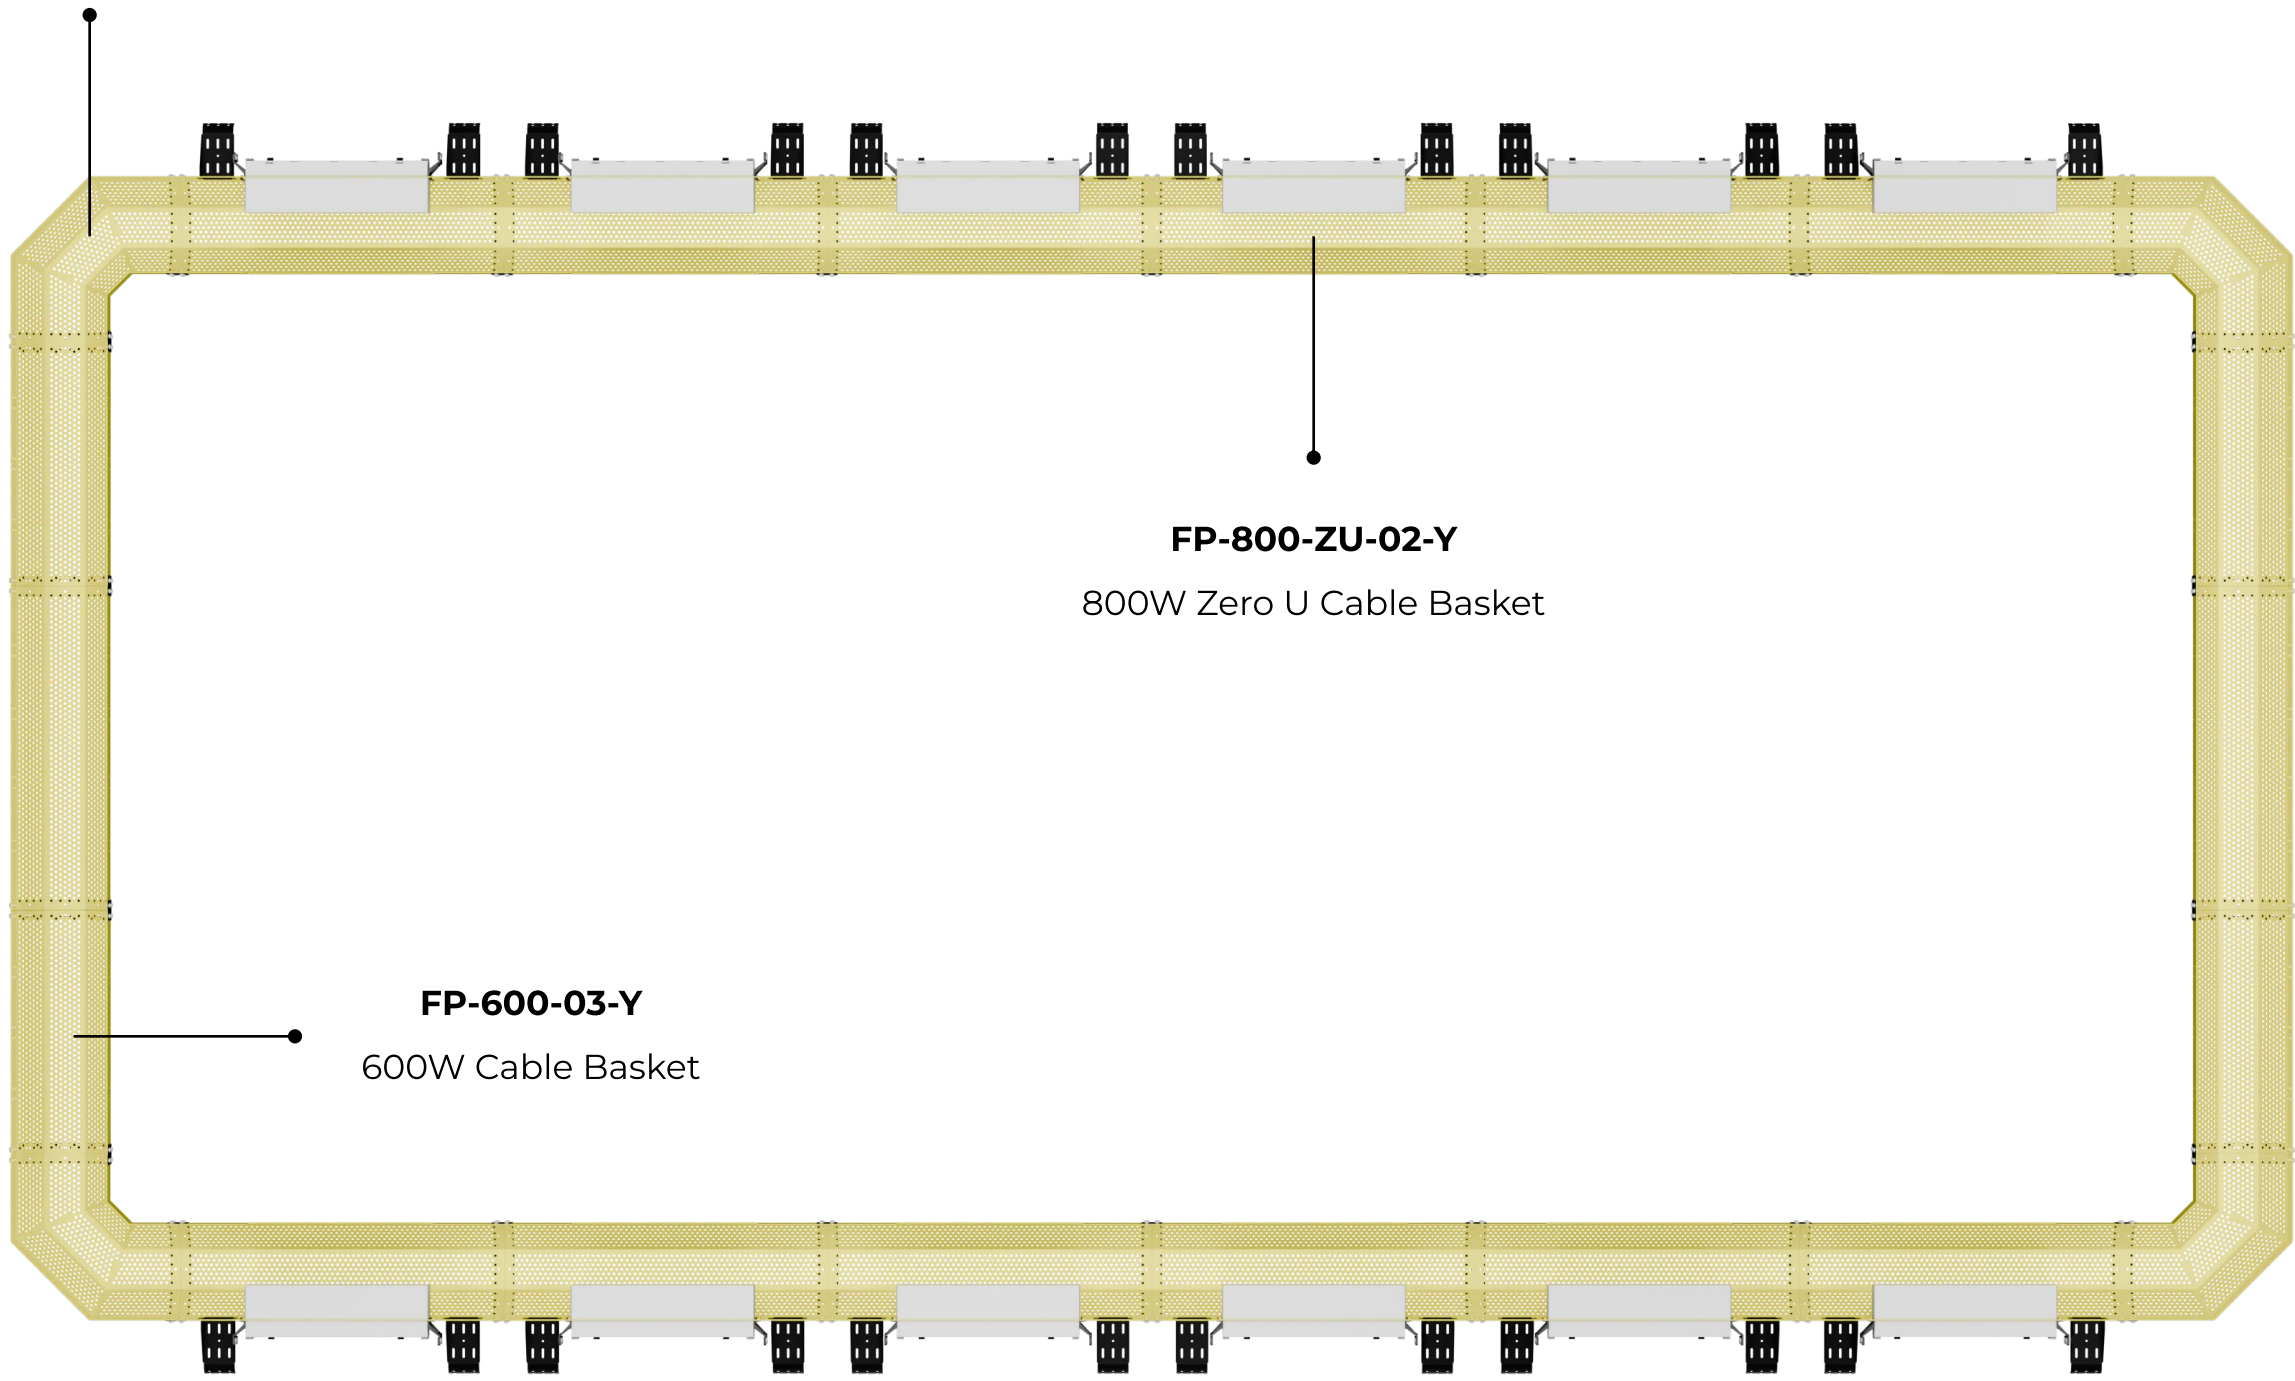

The ‘Crown’ – Ring with Patch Panel Mounting (Demarcation Point)

Bill of Materials - One Layer, 12 Rack Pod Configuration (Pods sizes can be contracted or expanded as required)

Quantity	Part Number	Description
12	FP-800-ZU-02-Y	800W Zero U Cable Basket
4	FP-90-HT-05-Y	Universal 90° Turn
4	FP-600-03-Y	600W Cable Basket
2	FP-800-04-Y	800W Cable Basket
24	FP-RCF-10-B	Cable Fall
22	FP-RC-09-B	Basket Coupler
1	-	Accessories Pack

FP-90-HT-05-Y
Universal 90° Turn

FP-800-ZU-02-Y
800W Zero U Cable Basket

FP-600-03-Y
600W Cable Basket

FP-RCF-10-B
Cable Fall

FP-RC-09-B
Basket Coupler

FP-800-04-Y
800W Cable Basket
