

Living our Mission

A is a young boy living at our Ariss location. As he is the only child residing at this location, he was thrilled to be included in Hopewell's children's summer camp programs (also being held at the Ariss location) as this allowed him to make new friends and spend time with his peers throughout the summer.

A attended community outings, participated in the weekly camp programming and engaged in the daily activities with his friends, like making rain clouds and edible slime.

In addition to his daily swims at the Ariss home pool with other campers, A enjoyed trips to Mapleton Organic Farm, Brantford Zoo, Guelph Ribfest, Ariss Valley Golf and Country Club and the Rockwood Conservation area just to name a few.

Due to our person centred focus of service delivery, staff were able to modify the summer camp programming to ensure A had a great summer, and was able to create lasting memories with new friends.
