

LIVING OUR MISSION

J has been participating in more community events and outings since moving into Stephanie Home last September! This summer, J participated in the Fergus Elora District Soccer Special Needs Program. With amazing encouragement from his support team, he was able to transition into his new activity very easily. The soccer league was so welcoming and included J as one of their own immediately. What a sense of independence he is developing! He is always laughing and chasing down the soccer ball with his teammates. J has made some new friends and will now have a great soccer community he belongs to!
