

Living Our Mission

Welcome, Ri, to your new home on Grange. After many successful visits in late 2023, Ri moved into the Grange home on January 2nd 2024.

His visits in late 2023 included time spent personalizing his room and getting to know his new roommates and staff team. On one visit, Ri prepared dinner for his roommates, and shared a meal together, something that he was not able to partake in while living in his previous home. Preparing dinner and sharing meals is a special way to build connections.

Ri's move to Grange brings him back to his home community, which family are thankful for. Through his engaged support team, they will help Ri to make new connections and meet the life goals he has set for himself. Here's to many more shared meals, laughter, and adventures together!
